DEWET IS AT SENEKAL

Holding the Country Between Freckesberg, Senekal and Winburg.

ACCORDING TO LATE REPORTS

Lord General's Attempt to Break Through the South Has Been Frustrated.

Capetown Dec 28—General De Wet's attempt to break through south has been frustrated and he is now reported to be at Senekal with the British commando holding the country between Freckesberg Senekal and Winburg

General Knox is holding the country between Ladybrand and Winburg

The eastern parties of invading Boers are confidently being harassed and driven back to north of the Orange river

ADDIS WERE HAZED TO THE DEGREE OF EXHAUSTION

West Point N Y Dec 28—The taking of testimony by the military court of inquiry in regard to the death of Cadet Oscar L Booz will be held at the West Point military academy this afternoon

The investigation brought out facts to the effect that cadets had been hazed to a degree of exhaustion the victims mentioned particularly Cadets MacArthur and Haskell MacArthur himself denied that he had been hazed but acknowledged that he had been exercised to such an extent that he had cramps in his muscles and was for a time in control of them Haskell testified that in the corps no such thing as hazing was available

Senator Johnson of Oregon asked if that hazing and bracing were entirely unconnected Bracing is indulged in by upper class men on fourth class men for the purpose of insuring a proper military carriage The upper class men the witness said considered it a moral duty to maintain the carriage of the members of the fourth class

Senator John C Pearson of Virginia, in answer to questions said he was told that Cadet MacArthur had requested some upper class men to wash his mouth with carbolic acid because he had cry out hysterically as he could not control himself after hazing

Why should he do this?

There was an office near by at the time and I was told MacArthur was afraid that he would hear him

Lieutenant George Blakely an instructor in the department of mathematics said Mr Booz called on him in the summer of 1898 and said that his son Oscar was in the academy and had been in a fight, but did not speak of it as a serious injury

Lieutenant Colonel George B Davis deputy advocate general U S A was sworn and gave a resume of the efforts made by the authorities of the military academy to eradicate the practice of hazing during the last 25 years Colonel Davis was graduated in 1871

Yankin was the commonly talked of form of hazing then This is similar to what is now spoken of as dragging men from their beds with mattresses or blankets underneath them Witness said various means of stopping hazing had been tried until now in 1900 these efforts were crowned with very substantial success through the cooperation of the corps of cadets

Lieutenant Colonel Otto Hein commandant of cadets produced several extracts from his records for the last three years showing that the penalties inflicted for hazing in 1898 had been much greater than in previous years Cadet Booz he said never made any complaint of his treatment.

MAJOR FORAKER ON PUERTO RICO POLICY

Cincinnati Ohio Dec 28—Senator Foraker has made a reply to the speech at Ann Arbor Mich of President Benjamin Harrison which Mr Harrison criticised the American policy of the government in governing it as a departure from the principles In a speech before the manufacturers club of this city last night Senator Foraker said on this subject

The questions arising from the Puerto Rican legislation are soon to be passed upon by the supreme court For reason I do not care to discuss at this time but it is in order to say that the view taken by the country is reflected by that legislation creditable to the generosity of the American people We found Puerto Rico poverty could make it bear no money no credit no system of taxation of any kind We have set up government and a revenue Support it

We gave her a far more liberal government than was ever given territory acquired by the right of war as part of a nation in it by her is concerned and we did it by more generously in providing support for that government than we have ever dealt with any territory

Requiring her to pay tariff duties on goods from foreign countries we did what we did with Louisiana and California and all our other cities but in allowing her to put duties when collected into her treasury for the support of her government we did what was done before for anybody else and other cases we have not only let the payment of these same duties but we have also required them when they were collected to be paid into the national treasury at Washington for the benefit of the whole country and as to duties on commerce between Puerto Rico and the United States we did not levy 15 per cent but we remitted 85 per cent of the existing rates on a number of articles and the whole duty on the rest and provided that the 15 per cent should be remitted on or after March 1 1902 or sooner if the legislature of Puerto Rico shall so provide and that in the meanwhile all collections of this 15 per cent, both there and in the United States shall be paid over to Puerto Rico for her own support We made this provision because it was the easiest and least burdensome way possible to raise indispensable revenue for their government and not because it was in any sense a benefit to either our government or our people.

The Puerto Rican legislature is now in session but neither that body nor any member of it nor anybody else has taken any step to repeal or alter the tax system so imposed by congress On the contrary all concerned seem to be satisfied with what congress has done and the request will be almost unanimously made that the provisions enacted may be continued if not indefinitely at least until some satisfactory system of proper taxation may be substituted

In addition it should be stated that congress also in the same generous spirit exempted Puerto Rico from all internal revenue taxation—another favor never before extended to any people anywhere

Yes it is true that the legislation for Puerto Rico was a departure but it is not true that it was a departure from correct principles

MINDANAO CAMPAIGN

6th Infantry Has Been Active During December

Manila Dec 28—A pushing campaign is carried on by the 6th Infantry during December in northern Mindanao

The town of Jeminez was captured after the insurgent stronghold in the mountains further inland The town of Lingarin was captured by a detachment of a hundred troops who killed the enemy in that vicinity killing and capturing several A portion of the insurgent force have returned to Misamis and joined the campaign against Lanao General Hobbs is pursuing the campaign

General MacArthur's proclamation is bearing many arrests of alleged insurgent sympathizers in Manila and vicinity and those taken to Cebu are kept in close custody Some of the prisoners were sentenced to imprisonment for attempting to escape

KEANE'S SERMONS

Dubuque Iowa Dec 28—A special to the news from Dubuque Iowa says Archbishop Keane since his appointment to the see of Dubuque has strong grounds against the use of alcohol On several occasions he preached temperance sermons and will have delightful fun with John L if he is here alive and liquor dealers are considerably worked up and is strong opposition to their

In the property on Seventh and Main streets belonging to the city is a saloon run by ex Mayor Sullivan The latter has been served with notice to vacate the property as soon as possible The archbishop says no property of the church can be used for saloon purposes

NEW EMPEROR

A Boy Alleged to Have Been Appointed By the Empress Dowager of China

London Dec 29—Private advices from the province of Shansi say a dispatch from the Shanhai correspondent of the Standard that while the court was sojourning at Taiyuen fu the empress dowager secretly appointed a new emperor with the title of Ting Hsu He is a 15 year old boy who was taken to Sian-fu in the imperial sedan chair

This explains the permission given to Emperor Kwang Hsu to return to Peking

Emperor Kwang Hsu has notified the reform party that he is returning to the capital and will need their assistance

STRIKE AT LOUISVILLE

Nearly 1700 Employes of Continental Company Stopped Work at Noon Whistle

Louisville Ky Dec 28—When the 12 o clock whistle blew for lunch today at the stemming plant of the Continental Tobacco company at 24th and Main streets nearly 1 00 employes went on strike

The employes want increased wages and object to various rules that have been made by the new superintendent

One employe is charged by the police on the charge of disorderly conduct After sending for the managers of the plant a statement of their demands the strikers dispersed

FOR THOSE WHO WANT TO KNOW

Pertinent Queries and Apt Replies Given for Those Fond of Tales of the Track

To the Editor of the Gazette

To decide a few holiday bets will you kindly answer the following questions

Q What railroad was it that last week ran a special train from Omaha to some point in Montana? What was the distance and what was the speed?

A The Burlington The distance, Omaha to Billings Mont is 893 miles The average rate or speed was 53 miles per hour On the last half of the run the train was slowed down because word was received that the daughter of Mr McCormick who chartered the train was out of danger and would recover

Q What railroad ran the celebrated Mayhew special train Chicago to Denver, and when?

A The Burlington from Chicago to Denver 1076 miles in 1947 minutes the world s record for long distance fast running February 18 1897 As was the case with the McCormick special the Mayhew special was made ready on less than thirty minutes notice

Q What is the fastest time now made between Denver and Chicago and between Denver and St Louis?

A The Burlington four o clock train from Denver It arrives in Chicago the next evening at 8 30 and in St. Louis the next evening at 6.55. No other line makes as fast time

Q How long and how old in the Burlington railroad?

A It is 1 064 miles long and growing longer every day Fifty years ago the Burlington was an insignificant local line, thirty-three miles long commencing at Chicago and terminating near Aurora Ill Today Burlington lines traverse eleven great states of the west, and it employs more than 36,000 men

Q About how many tickets are issued a year by a railroad?

A The railroad tickets sold by the Burlington during the last twelve months would if placed end to end reach a distance of 406 miles and the number is several millions

COLVILLE AT PLYMOUTH

London, Dec 28—A dispatch from Plymouth announces the arrival there of Major General Sir Henry Colville

PAT CROWE IS WANTED

Police Feel Sure He is One of the Cudahy Kidnapers.

THE WOMAN IN THE CASE

An Intimate Friend of Crowe's is Believed to be Able to Give Valuable Information.

Omaha Dec 28—Daniel Burris today positively identified at Pacific Junction Iowa the pony left there mysteriously in the barn of a Mrs Mack the day following the Cudahy abduction as the one he sold to a man answering the description of Pat Crowe a few days before the abduction

Mrs Thomas B Cooper a married daughter of Burris was today shown a collection of 25 photographs taken from the rogues gallery and asked to select if she could one or more which resembled the light complexioned man who called to buy the pony She at once picked out two of the photographs which she was sure were those of this man The pictures were those of Crowe Mrs Cooper is the fifth person who saw this man who has identified him with a likeness of Crowe and the police now feel sure that he is one of the men wanted

The detectives are very anxious to locate Lizzie Burns who is alleged to have been an intimate friend of Crowe

The Burns woman was employed at hotels in South Omaha up to the time of the Cudahy abduction since which time she has not been seen she was seen with Crowe both in South Omaha and Chicago While she may not have been connected with the crime the police feel sure they can by locating her secure some valuable information about Crowe which will lead to his arrest. She is 30 years old light complexioned tall large with gray blue eyes

"TEMPERANCE" MOVEMENT AS CONDUCTED IN KANSAS

Wichita Kan Dec 28—Mrs Nation the woman who inaugurated a saloon smashing campaign yesterday with rocks and scrap iron refused her liberty today

It was offered her on condition that she would refrain from such practices in the future but she boldly refused telling the court in an eloquent speech that it is her fixed intention to fling rocks in the windows and glass ware of Kansas saloons until the state is aroused against the liquor traffic When she was asked to make her plea in court she refused until the county attorney would throw away the cigar he held in his mouth

Her case has been postponed for a week and in the meantime she insists on staying in jail Nearly 100 temperance people of the more radical disposition surrounded the jail today and all joined with her in singing Nearer My God to Thee

Mrs Nation s husband is a lawyer but she says she expects no help from him

MAIL POUCH STOLEN AT WYANDOTTE, MICH.

Detroit, Mich Dec. 28—A mail pouch containing $100 00 in stable paper and an unknown amount of money was stolen from the Michigan Central passenger station at Wyandotte Mich some time last night

The last mail for Wyandotte arrives at 10 28 on the Michigan Central and owing to the lateness of the hour it is left in the station until morning When the two mail sacks were thrown from the train last night Night Operator Richert threw the pouches under a seat in a corner of the waiting room He then went to his home in Detroit

Today when Mail Carrier John McClearly came to the station for the mail sacks he missed one About the same time George Bresy a driver of an old wagon reported at the station that a pouch ripped open and empty was behind an oil tank a short distance from the station About the time of the finding of the pouch two employes of the J B Ford Alkali works found a number of checks and opened envelopes strewn along the railroad tracks

Postmaster Johnson of Wyandotte was notified and went at once to the scene The trail of the thief was marked along the railroad track by strewn letters checks and drafts Most of the mail was intended for the J B Ford company and a force of clerks was sent out to collect the letters strewn along the track. The reason for this activity on the part of he J B Ford company was that J B Ford Jr and he expected a draft today from New York for $40 000 The draft did not come and it is believed that the robbers or robbers took it with other valuable papers from the pouch

BERLIN KREUZ ZEITUNG DENOUNCES CANAL TREATY

Berlin Dec 28—The Kreuz Zeitung conservative the chief mouthpiece of the government whose editorials are often prepared by government officials devotes two long articles today to the Nicaragua canal controversy, pronouncing the Davis amendment of the Hay Pauncefote treaty a slap for England

"Treaties could not be more recklessly brushed aside than they have been in this case by the United State senate" says the Kreuz Zeitung This disregard of the law of nations which had already been manifested during the peace negotiations with Spain is to the highest degree regrettable It is a counterpart of England s treatment of the Boer republics

President McKinley s administration has been placed in a highly disagreeable position inasmuch as the action of the senat is a grave provocation to England and it is impossible to face the Anti English feeling in the country The administration could not thus wound Yankee pride

"If the president adopts the senate s position England will have a moral right to prepare a Fashoda for the United States but judging from past experiences she will not do so The present tone of the British press toward the United States is in striking contrast with its ferocious tone toward France in 1898

"England is not likely to play her strongest trumps against the United States, but if she were to do so she and not the United States would be the sufferer Fortune is too fickle

OFFICIALS HOPE FOR ACCEPTANCE OF TERMS

Washington Dec. 28— The Chinese embassy here is without info mation on the reports that Emperor Kwang Hsu does not approve the demands submitted by the powers For some days however the view has prevailed in Chinese quarters that the terms were so harsh that it would be difficult to secure the acceptance A report was in circulation in diplomatic quarters that one of the Chinese envoys was opposed to accepting the terms but it is not known whether this report came from any authoritative source It was understood also that Li Hung Chang s illness might have some effect in retarding the negotiations

The state department has received nothing from Minister Conger to indicate that the emperor opposes the acceptance of the peace terms The officials here continue to be hopeful that there will be an early acceptance The points referred to as objectionable to the Chinese chiefly the maintenance of legation guards are not regarded here as likely to form serious barriers to an agreement as all of the powers probably will give visible evidence at an early day of their purpose to reduce the legation guard as soon as China shows good faith in accepting the conditions

In some diplomatic quarters it is believed that the reported opposition of the emperor will not lead to a rejection of the demand but to the submission of a counter proposition of inquiry from China This is considered the natural course of diplomatic controversy and it would have the advantage to China of saving her rights to accept the terms at a later period while in the meantime seeking to revise their severity

DANISH WEST INDIES

London Dec 29— The American and Danish governments are engaged in direct negotiations for the sale of the Danish West Indies, says the Copenhagen correspondent of the Daily Mail and the Danish minister in Washington will shortly submit a proposal for the consideration of the American senate

NO DROWNING

Whatcheer Has No Pond Big Enough to Drown 40 People Trainmen's Joke

Des Moines Dec 28.—A telephone message from What Cheer this morning declares there is not a word of truth in the story of forty nine people drowning there while skating A conversation with the lady in charge of the exchange at that point stated that the story was a joke of some trainmen and that they first told that the accident had occurred at Lokaya a little town near What Cheer The rid culousness of the story is declared was apparent from the fact that there is not a pond in the town big enough to hold ten people let alone forty nine The Foster story is the outgrowth of the Lokaya joke

PADEREWSKI HEARD FROM

London Dec 28— M Paderewski is at Lausanne with his wife says the Vienna correspondent of the Daily Telegraph and declares the story that he recently fought a duel to be an invention He asserts that the nervous affection from which he has been suffering has greatly diminished

CHICAGO INDICTMENTS

Preliminary Action Toward Returning True Bills Against Prominent Municipal Officers

Chicago Dec 28—Keepers of 14 dives and gambling houses were indicted by the grand jury today as the result of the inquiry into crime and vice in Chicago The work will be continued tomorrow Of the 14 indictments four were against alleged keepers of gambling houses and 10 against proprietors of basement and other resorts on the charge of conducting disorderly places One state senator and David Lewisohn ex-city detective were among those hit by the first batch of indictments

The 10 indicted, on the charge of keeping common gambling houses are State Senator John Broderick Louis Frank and Julius Frank, Denis Foley A Bernstein

It was asserted tonight that the voting of indictments against dive keepers is but the preliminary action toward returning true bills against a number of prominent municipal officers who are responsible for the enforcement of all laws and ordinances Foreman McCoy of the jury had only this to say tonight

The question of the liability of the police and other municipal officers was put over until tomorrow

ROBERTS AT GIBRALTAR

Gibraltar Dec 28—The steamer Canada with Lord Roberts on board arrived here from South Africa today The field marshal landed at noon and received a great ovation The Canada will resume her voyage tonight

SCRANTON STRIKE

Proposition for Settlement is Expected Today

Scranton Pa, Dec. 28—A conference was held today between Timothy Burke a local director of the Scranton Railway company and a committee of the striking employes The proceedings were not divulged further than the issuing of a statement that it was promised by Mr Burke that a proposition for settlement would likely be forthcoming tomorrow

Thirteen cars were taken out of the car barns today but only five or six were run at any one time Not a single passenger was carried on any car and at 3 o clock the company ordered that the cars should cease running Everywhere the cars moved they were greeted with volleys of snowballs or stones and most of them had their windows smashed Crews in many instances deserted upon arriving at the company s office after withstanding a siege of not more than an hour or so

London Dec 29 6 a m—Lord William Leslie de la Poer Beresford died at midnight, aged 53 years

LORD BERESFORD DEAD

A NEW LEAGUE

Western Association of Professional Baseball Clubs Formed

Chicago Dec. 28— At a meeting held today in the Great Northern hotel the Western Association of Professional Baseball clubs was formed No officers were elected this action being deferred until next Wednesday when an adjourned meeting will be held in this city

The members of the association so far determined upon are Kansas City, Minneapolis Detroit Louisville and Toledo Eight clubs in all will comprise the association but those present at the meeting today declined to say what three other cities would be saying that they would be taken from a list of half a dozen which made application The names of these places were also kept secret but it is known that among the number were Rockford Ills, St Paul and Grand Rapids Mich It is known too that if the American league shall drop either Buffalo or Indianapolis, the town will surely be taken

A constitution and by laws were adopted The management of the association will be under the patronage of the American league and several magnates of that league were present to lend their advice and support in the formation of the association

Bobby (to his sister s beau)—Say Mr Hangoff ain t you afraid o Ma?

Mr H—Why no. What ever put such an idea into your head?

Bobby—Pa did I heard him say to ma a little while ago I guess Ma'll get his scalp tonight She s gone up to get her war paint on —(Philadelphia Press.

WILD GALES IN ENGLAND

Most Terrific Storm In Years In The British Isles.

GREAT DAMAGE IS REPORTED

Breakwater at Watchet Harbor Was Demolished and Shipping Was At Mercy of the Sea.

London Dec 28—There has been a recurrence of storms and violent gales in the channel and considerable damage has been wrought ashore Telegraph lines are down in many places

The British bark Queen of Cambria from Teopilla August 30 for Falmouth while being towed into Falmouth parted her towline and the force of the gale blew her across the bows of the British bark Crown of India which arrived at Falmouth December 2 from San Francisco The latter vessel suffered damage to her hull and the Queen of Cambria was cut down to the waters edge She has been leaked and is leaking

Incessant reports of innumerable shipping casualties show that the gale was one of the worst known in many years Probably several days will elapse before the full damage becomes known In addition to some vessels not yet identified several have been wrecked or placed in great danger the fate of some of the cross channel steamers is in doubt For instance the Great Western railway company s steamer plying between Milford and Waterford is 12 hours overdue and no tidings of her have yet been received It would be impossible to enumerate all the minor casualties

The British steamer Rosefield which arrived at Antwerp December 22 from Pensacola lost part of her deckload on the voyage

The hurricane is increasing at Queenstown where the observers say it is the fiercest storm in years The Maria Leden with coal sank at her anchorage The mails are delayed

Late dispatches from Cardiff indicate that the Pegasus has not foundered The statement of her loss originated with a sailor from her crew who landed at Cardiff this morning It now appears that the Pegasus grounded off Lavernock Point, but she was subsequently floated and towed to a place of shelter When she grounded her boats were made ready for lowering and the falls of one of them carried away precipitating five men into the water They were all drowned with the exception of the sailor landed at Cardiff This man was picked up by a tug

The Primrose Hill went on the Penryhos rocks three miles off South Stack (not far from Holyhead) She broke in two and went to pieces in a few moments One man out of the crew of 25 men was saved by a lifeboat Some time before she struck the Primrose Hill dropped her anchors but mountainous seas were running No sooner had the ill fated ship touched the rocks than the three after masts went over board and she broke in twain leaving only the foremast standing Three minutes later this went also The Hibernia stood by throughout but was powerless to aid The Holyhead steam lifeboat made three vain attempts to reach the Primrose Hill The latter s crew were killed on the poop when a huge sea dashed over the vessel washing all as say one sailor who was finally hurled against the rocks sustaining terrible injuries

The British steamer Penhoi from Sulling November 23 for Dublin is ashore on the sands between Aberavon and Briton Ferry No fatalities have occurred

The Spanish steamer Enreuri was driven ashore at the Portland breakwater The Weymouth lifeboat attempted to rescue her crew but the fearful seas, running prevented them It is believed they can be saved. Twenty-two of the crew managed to reach the breakwater but five are still on board It is feared that the Enreduri will fill and sink

The steamer Zeffro collided with another steamer near Cilvdon in the British channel A lifeboat rescued nine of her crew

In response to rockets from Eddystone light Plymouth sent out a dockyard tug with a lifeboat to assist what was reported to be a large steamer in distress in the channel

A terrific accident took place near Taunton The breakwater at Watchet harbor has yielded to the force of the gale and become a wreck permitting a tremendous sea to have full play against the shipping in the harbor Several vessels broke adrift two were wrecked and five others were driven into a hopeless tangle in a corner between a pier and a wharf where they lay grinding each other their masts and bulwarks speedily went and their hulls were greatly battered The damage will reach many thousands of pounds

The Austrian bark Capricorn was driven ashore near Budé Cornwall Nine of the crew were drowned and four are still on board with little likelihood of being aided, as they are unable to assist themselves by the rocket apparatus

Two other vessels are ashore on the Cornwall coast Several were stove in at Ilfracombe harbor The bark Pagnat was wrecked off Trevine near Cardiff three of her crew being drowned and nine others being rescued by rocket lines

H M S Black Prince at Queenstown, and H M S Teaser at Portsmouth were both badly damaged

Wales appears to have suffered worst effects of the gale both on land and sea but everywhere the telegraph wires are much disorganised and reports are therefore incomplete

Considerable damage to property inland is certain to be reported Some 50 barges and sailing craft broke from their moorings in the Thames alone.

At Gwyentry a theater was destroyed

The Evils of Evolution.

"Women have no business having children anyway"

His listener was startled at the energy with which Major John Blank made this remark.

"What has driven you to that conclusion?" he inquired

"This confounded advanced woman business was the vehement rejoinder Formerly the lines were so distinctly drawn that a shrieker was known at sight But now things are getting so mixed that a gentleman never knows who he is talking to. Why the other day when I got on the car I quite introduced myself to a pretty little woman by mistake I didn t hear her name Smith soon left the car and I made some casual remark to her Twas her voice that first attracted me—such a genuinely sweet southern voice that I wanted to hear it again We were soon in the midst of a conversation I doing most of the talking for she wasn t much of a talker but a more delightful person to converse with I never saw Such a bright smile, so responsive, so appreciative of—ah—um—one s jokes and all that and the biggest eyes so soft and sweet You know I always was a fool about a woman s eyes. Well the truth is I was struck and went away past my destination When she got out one of the Capital City club boys came over to me laughing And what do you think he told me? That she was one of those confounded Woman s club women—a leader and all that kind of thing Me—who flatter myself I know the world mashed on that kind of a woman! But how the deuce could I suspect a shy womanly little thing like that of having ideas?

"I tell you what it is, Hearne" he continued impressively, these advanced women find they can't achieve their ends in any other way so they re going in for prettiness to win us in that way It s a deep laid scheme mark my words They know we can t—

The major stopped short a note of troubled intonation in his voice He knew his weakness Intellect he could withstand but prettiness overcame him And here are some of them His indignation still pouring itself forth dainty feminine creatures editing papers advocating suffrage and the Lord knows what besides How if twere short haired spectacled Massachusetts importations carrying on this way I could stand it but when it comes to the best blood in the south, it s too much—by George!

"But what has all this to do with women having children? asked his smiling listener

Everything was the fierce rejoinder Look here what does history show? It shows that when women were savages they took little more care of their offspring than did the fathers—letting them shift for themselves almost from birth. But in the course of time mothers began to spend much time on refinement—my children must be well dressed Then they talked about those children s education—higher education for women. Later on they claim that they must be educating themselves all through life, that they may rear those children I heard a woman say not long ago I don t have time for card-clubs, etc— I have to study some every day I can no more do my duty to my children without special study than a physician can heal disease without it. Humph! My mother did none of this study and her children turned out pretty well And not content with wanting women to be as smart as men—which is unnatural enough Heaven knows!—they must be on the board of education because nothing can be more natural than for mothers to concern themselves in the education of their children It s always their children for whom they take these steps and some even want suffrage because they have children and they must see to it that the best laws are made for those children s protection The same old cry their children So you see all these monstrosities spring from the fact of women being mothers Now if a result is unwomanly the cause which produces that result is also unwomanly The Bible doesn t tell you to clip the branches but to apply the axe to the root of the tree So I hold—and every man of sense must agree with me—that it s unfeminine for women to have children in the first place—(Julia O Keefe Nelson in the Atlanta (Ga) Saturday Review

There are no hard and fast rules for bringing up children said Mrs H C Bunner of St Paul recently speaking on the subject of The Training of Children

Each human soul must be treated as a unit Room must be left for spontaneous growth for individual expansion Nothing takes the place of common sense in dealing with a child All training begins with senses, and temperance in food and drink has a most important moral influence

All progress depends on the mother and her modes of thought speech and habits become the warp and woof of the ego of the child Her manner should never invite opposition The trouble with the majority of mothers is that they are all heart and no head Children should be taught the dignity of labor and should receive some small wage for their work that they may know the value of money Avoid all unnecessary talk of neighbors food and clothes Let household conversation have a permanent value Teach children plain living and high thinking Teach boys chivalry and both boys and girls the fundamental lessons obedience, honesty and truthfulness.

An Ounce of Prevention

The board of health of the city of Cripple Creek in order to guard against the spread of smallpox and scarlet fever, a few cases of which are in the city have taken rigid measures and promulgated some stringent orders The board orders that all saloons and dance halls must be closed from 12 o'clock at night to 6 in the morning No public dances will be permitted The police are instructed to rid the city of all vagrants and it is ordered that all children and adults must be vaccinated Chloride of lime will be used freely as a disinfectant and the sanitary condition of the city will be looked after most carefully The order regarding the saloons goes into effect tomorrow While the condition of the contagious diseases is not alarming yet it is thought best to take such steps as will prevent anything like an epidemic occurring The business men are cooperating in the good work.

The dance halls close tonight. There will be no public gatherings permitted for the present, theaters, churches or otherwise

SPORTSMEN OF THE STATE IN CONVENTION AT DENVER

Special to The Gazette

Denver Dec 28—The Sportsmen's convention was called to order in the assembly room of the Denver Wheel club by Major William Cooke Daniels at 3 o'clock this afternoon About 200 were in attendance representing nearly every sportsmen's club and county in the state The major made a short address setting forth the reasons why the convention was a necessity and called for the nominations for permanent chairman Chas Kibler being the only nominee was unanimously elected as was also Kemp Middlekauss for secretary In assuming the chairmanship Mr Kibler read from a manuscript in part as follows

Gentlemen—I thank you for the honor conferred upon me and I promise you that every sportsman here shall be given an opportunity to be heard The wild game is the property of the state and you are here to guard that property In the main the existing game laws are good but there are a few discrepancies and it is our duty to see that these discrepancies are as far as possible remedied

The following committee was then appointed to examine the credentials of the delegates and report the order of business W S Montgomery, W C Daniels W R Lee George Newton and C S Priddy

While waiting for the committee to report a number of invited guests addressed the convention the addresses all tending to show that the existing laws are not adequate to the needs of the state The addresses also urged upon the members the practical idea that they as far as possible are to obey the laws themselves and also obey their own conscienceby regarding how the game of the state should be preserved whether or not a law existed compelling them to protect it

Chairman Kibler in introducing the speakers made many pointed hits that caused much amusement Especially was this true in his introduction of Mayor Johnson which he referred to the mayor as a recognized authority on game from the fact that the press reports from Denver chronicle accounts of many kinds of game in the mayors own city The mayor very neatly welcomed the delegates to the city and appointed Chairman Kibler as a guide to show them all the game in Denver The mayor referred feelingly to the fact that all kinds of wild game is fast passing away and said that he felt that any true sportsman would be content to kill just one of each of the larger animals per year The mayor advocated the adoption of such game laws as will protect the game and hoped that all sportsmen would obey them

G O Bryan had for his subject "Ducks" He described in detail the intense pleasure derived from sitting in a retreat on a cold damp foggy morning and intently watching until at last a bird is bagged

The report of the committee on credentials was then heard and adopted The order of business declared that the game laws shall be discussed separately and such changes as the convention thinks best shall be adopted and report el to the legislature for its endorsement

Among the present from El Paso county are the following I W Garrett R P Davis, I W Coffee Thos Stark Edward R Sterk W S Montgomery John Himebaugh

FLORENCE

SMELTER MEN'S GRIEVANCES MAY BE ADJUSTED.

City Has Purchased the McCandless Sewer System—Estimates for the Proposed New Reservoir

Special to the Gazette

Florence Dec 28—Last month the Florence and Cripple Creek railroad business at Cleveland nearly $25,000 At present loaded ore cars continue to block the yards at that point The ore is coming in faster than the mill is capacity to treat

Much interest is noticeable among the mill employes concerning the possibilities of a strike with the incoming year If the question of eight hours for every place in the mill is properly and cautious ly presented to the management from what has cropped out thus far, it is believed that no trouble will ensue

The Florence Electric Street Railway company has placed an order for a car load of poles which will be used in the construction of the electric railway system The rails that were ordered will probably be in next week When once thoroughly begun the work will proceed with rapidity

Florence typographical union has received a draft for $60 the death benefit of J L Madkes who was an active member of No. 89 and who died at Murdo Kas a little over a week ago The money will be forwarded to his mother at Burlen

The Woodmen of the World won the plano in the recent contest and it is now placed in the lodge room The Woodmen regard their success in the contest as an indication of the strength of that order and at a not far distant date they will celebrate their victory with an appropriate entertainment

The city has purchased the sewer system which belonged to James A McCandless at a cost of $30 000 The purchase includes the sewer franchise held large and two acres of ground This will give the city two sewer systems

A B McFall city engineer has prepared estimates for another reservoir which the city intends building The ultimate is that to build a reservoir with a capacity of 10 500 000 gallons would necessitate the removal of 7 371 cubic yards of earth and at an approximate cost of $1 10 The location although not determined will probably be just above the site of the present one

ILLINOIS DEMOCRATS

Chicago Dec 28—A call has been issued for a meeting of the Illinois Democratic state central committee to be held at Springfield on the evening of January 7 The issuance of the call for the meeting on that date renders practically certain the election of John P Hopkins of Chicago, who was chairman of the Illinois Gold Democratic state committee in 1896 as chairman of the state central committee The Hopkins faction has wished for a meeting upon this date while the anti-Hopkins people made strong efforts to have the meeting postponed until January 10 Mr Bryan is to be here on January 8 and his friends were anxious that the selection of a chairman be postponed until after his visit

CLEARED OF BRIBERY

Cleveland O Dec 28—The city council tonight with only 11 of the 22 members present finished the trial of the members accused of accepting bribes With no prosecutor present the cases of D R Steurer A W Henry and Leon Purdy, were taken up—Within 15 minutes all were found not guilty of the charges preferred against them

INQUEST AT ST. JOSEPH

Evidence Tends to Incriminate a Woman and Her Adviser, a Traveling Man

St Joseph, Mo Dec 28—Two sensations resulted today from the evidence elicited at the inquest over the murder of Frank Richardson The millionaire merchant who was shot down in his own home at Savannah Mo Christmas eve

The first was the establishment of the probable innocence of a business partner of the murdered man and the second was probably the fixing of responsibility for the crime on a woman and her adviser a traveling man who are alleged to have blackmailed the deceased out of various sums of money covering a period of almost a year

Mrs Richardson was expected to take the stand today but darkness approached before the third witness had concluded his evidence and it was deemed prudent by the prosecution to postpone the testimony of the widow until tomorrow

Charles Stanton superintendent of the electric light station testified concerning Richardson's connection with Goldie Whitehead a young woman who resided at Stanberry Mo with whom Mr Richardson had been on intimate terms and who appeared to be hounding him for money The day before the murder Richardson had told him he had given $40 to a traveling man to give to Goldie and that the traveling man had kept half the money Mr Stanton had talked with the Whitehead woman after the murder and she had said she was not afraid of them ever getting her for the crime

Sensational evidence is expected to morrow

TURKISH INDEMNITY

State Department Has Not Yet Received any Money on Account of the Claims

Washington Dec 28—The state department has received no money as yet on account of the Turkish indemnity claims nor has it any connection whatever with the deal which has been made by the Cramps with the Turkish government for the inclusion of the amount of the indemnity in the price to be paid for a warship by the Turkish government But it does know that such contract has been made and it also has had for its own part promises from the Turkish government that the claims shall be paid So if the money comes through the Cramps it will be accepted as the state department recognizes the right of the porte to select any messenger it may choose to transmit the money

All that is necessary to make the transaction proper is that the fact shall clearly appear on the records that the money is paid by the Turkish government to the government of the United States which will distribute it among the claimants adjudged to be entitled to compensation

THE TURKISH NAVY

Ottoman Government Has Contracted for Construction of a Battle Ship in Germany

Berlin Dec. 28—The Ottoman government has contracted for the construction of the Ottoman battleship Assar-I-Tewfik at the German wharf Kiel at a cost of £270 000 The Cologne Gazette says that Germany in a friendly way informed the porte that if the claims of the United States for damages growing out of the Armenian outrages were granted Germany would expect similar treatment

EATING FOR TWO

it may be for three

A new mother, or about-to-be mother, should keep herself up to the highest possible level of health and supply, and begin far back. Live generously and carefully

Whatever is good for her comfort and health, let her have it, whatever is bad for her comfort or health, avoid it.

Almost without exception, Scott's emulsion of cod-liver oil is a needed help, and generally a very important help.

NEWS ITEMS FROM VICTOR

Taxpayers Voted Bonds For Water Works System

Death of Mr Reardon's Son—Twelve Year Old Boy Died of Scarlet Fever Yesterday

Victor Bureau
Colorado Springs Gazette

Victor Dec 28—The bond and tax propositions for Victor's city water plant were all carried by the overwhelming majority of 5 to 1 The vote was 1 against the issuance of the bonds and 5 for them The result of the vote gives the city council authority to issue new fifty year coupon bonds in the sum of $150 000 for the purpose of purchasing, erecting, constructing, extending and completing an system of water works within or without the city of Victor to supply water to the city for the and domestic purposes The coupon bonds are to be in denominations of $1 000 $500 and $100 each and to bear interest at the rate of per cent per annum Twenty five thousand dollars is about 3 per cent of the assessed valuation of the city and is the highest amount for which the city can legally vote bonds Of the $150 000 thus issued the city's debt $70 000 is represented by the water bonds which have been issued The greater part of the work in connection has been incurred in the building of the water system So large a sum is sufficient to fund the entire floating debt in excess it was necessary to mortgage the water plant for $50 000 which amount is needed above the $25 000 issue allowed by the statute This is in paying one debt to cancel another The advantage to be gained is the reduction of interest The city pays 8 per cent on its warrant indebtedness The bonds voted today will draw per cent thus allowing a saving of per cent a year The city will also be enabled to buy its supplies more economically as its warrants will be at par and the merchants will not add discount to their bills In the election there were 150 votes cast of which 145 were for the measure and 5 against it.

William Pierce Reardon the 12 year-old son of General and Mrs F M Reardon died at 5 o'clock this morning of scarlet fever The funeral which was private was held from the family residence this afternoon at 3 o'clock The interment was at Sunnyside cemetery Mr Reardon is postmaster of Victor and the sympathy of the entire community goes out to him and his wife The boy was the pride of the household upon which the hopes of the house were largely based He had been ill for some time and despite the efforts of the best medical skill that could be secured the dread disease conquered

DYNAMITE EXPLOSION

Keyser W Va Dec 28—By a dynamite explosion at Baker camp near Durbin Pocahontas county on the line of the Coal and Iron railroad now building out from Elkins six men were killed and several others fatally injured

The accident happened yesterday while the men were at dinner Some dynamite had been placed about the stove to thaw and shortly after a terrific explosion wrecked the camp killing three men outright and injuring eight others three of whom have since died The dead men were blown to atoms—legs arms and hands and even parts of their bodies being found in different directions from the building in which they lived Names are not obtainable tonight.

DRUGGISTS MUST BE CHARY

They Sell all Kinds of Hair Preparations and Fear to Discriminate

Druggists sell all kinds of hair preparations and as a rule they are wisely chary of giving preference to any particular one but many of them have come out plainly for Newbro's Herpicide the new treatment that absolutely kills the dandruff germ H Clannell & Son Champaign Ill say One customer of ours who did not have a hair on top of his head when he began to use Herpicide now has a fair start towards a good head of hair We believe Herpicide to be by far the best preparation of its kind on the market Hundreds of similar testimonials from everywhere

Much Wanted Kansas Convict Apprehended

Chief of police John Henry has the credit for making a very clever capture of a criminal last evening Last summer the police arrested a trunken man named James Murphy barber On him was found a letter that he had written to a man named Jack B Tofte Tofte had not yet paid from the contents it was certain that the man Tofte was a crook Recently he chief was reading a decision in a Kansas paper in which the judges held that the warden of the penitentiary has the right to offer a reward for the apprehension of a paroled man who has violated his parole It cited a notable case of the kind in Tofte who had been paroled but failed to keep the warden notified of his doings It seems that Tofte is the son of a man who was for twelve years the chief of police of Atchison Kan and was serving a sentence for the theft of about $3 000 worth of diamonds

The chief has had a watch kept on Murphy for some time and recently heard that he was chumming with a stranger The description answered that of Tofte and yesterday he received a reply from the warden at Lansing Kan and received a reply that he would pay a reward for the man The police were put to work and about 9 o'clock Officer Knapp found Tofte on Pikes Peak avenue Later Captain McNees found his baggage at a restaurant but there was nothing suspicious in it Tofte was taken to the county jail for the night His friend Murphy spent the night in the city jail on a charge of drunkenness The police have an idea that the man was getting nervous and was about to get away from the town when taken He had been around here for three weeks

BRADSTREET'S

Quarterly General Report of a Large Holiday Business—Encouraging Wholesale Reports

New York Dec 28 —Bradstreet's tomorrow will say

A fitting close to a year of exceptional and in some respects unprecedented activity is furnished by the general report of large holiday business in the last week The best sort as to this sort of trade comes from the southwestern section but not in some parts of the spring wheat and lumber belt of the northwest Satisfactory advices are quite general In wholesale trade business has been of reasonably small proportions but returns from leading lines are generally encouraging

Speculation in cereals has been light and lower even in supplies and large plus reports from the Argentine republic have still further depressed the price of interest in wheat

New business in iron and steel was well sustained and quite good for the period under review The impression prevails that an immense amount of new bridge material will be needed next year From Birmingham come intimations that a large business in pig iron is under consideration and it may be announced next year Coke prices promise to be lower some cut of 50 cents being already announced Export trade is quieter a reflection of the continued decline in prices abroad Estimates of pig iron production are that the aggregate will be little below 14 000 000 tons and therefore slightly in excess of 1899 Iron ore shipments by lake route will run nearly 18 000 000 tons the largest ever recorded

Wheat including flour shipments for the week aggregate 4 611 106 bushels against 4 123 860 last week and 3 810,567 bushels in the corresponding week of 1899

From July 1 to date this season wheat exports are 94 161 465 bushels against 103 994,193 last season and 121 528 709 in 1898

Business failures in the United States for the week number 213 against 257 last week and 220 in the week a year ago

Canadian failures for the week number 19 against 28 last week and 22 in this week a year ago

DUN'S REVIEW

Preliminary Statement on Failures for the Year—Features of the General Situation

New York Dec 28—R G Dun & Co's weekly review of trade tomorrow will say

While it is not yet possible to print accurate figures of failures during the full year 1900 a preliminary statement may be made that will approximate the final result Detailed returns for nil but the last few days of the year have been compiled and adding a proportionate amount for the time still to elapse it appears that commercial failures will number about 10 630 with liabilities of $131,000 000— Of this number 2 300 were in manufacturing for $48 750 000 7 800 in trading, for $60 000 000 and 530 brokers transporters, etc, not properly belonging in either of the other classes for $27 250 000 Besides these strictly commercial defaults there were 60 financial concerns with liabilities of $24 000 000 swelling the total to 10 690 in number and $170 000 000 in amount This shows a large increase over the preceding year when all failures numbered 9 337 and liabilities were $128 192 659 It must not be forgotten however that 1899 was a year of exceptional prosperity, and while trade was then stimulated by rising prices the succeeding year had to bear the brunt of reaction Despite these disasters made unavoidable by the very conditions that brought such a phenomenal record for 1899, it still will be found that 1900 compares favorably with other recent years

So general preparation had been made by eastern business interests for a squeeze in money near the end of the year that the expected advance did not occur and collections in the interior were so good that banks made general complaint of the scarcity of mercantile paper offered for discount This outcome was particularly encouraging Enough business will need more money after January 1 Some wage differences have been adjusted In this respect the situation is unusually bright

More talk of a general reduction in coke and cheaper ore after navigation opens might be calculated to unsettle quotations of the finished products but the iron and steel continue the even tenor of their way In every department of this industry more business is offered than can be accepted unless purchasers are willing to give much time for delivery One large foreign contract was lost on this account and at many points domestic operations are delayed by inability to secure material Instead of the agitation for cheaper steel rails that was so prevalent a short time ago producers are said to contemplate an advance Domestic contracts in this line exceeded 70 000 tons at Chicago and among foreign orders is noticed one for 7 000 for Australia with many smaller sales Structural material is wanted for buildings and bridges with noticeable activity in this department for export.

Have you a cold? A dose of BALLARD'S HOREHOUND SYRUP at bed time will remove it Price 25 cents and 50 cents Hedges Secularius Drug Co 21 South Tejon street.

MANITOU

Miss Ethel Frazier who is well known in Manitou having lived there for several years has gone to Plainfield Wis, to spend the rest of the winter with friends and relatives She left last night over the Rock Island

The Sunday school of the Episcopal church had their Christmas tree and entertainment at the church on Canon avenue Thursday night A very enjoyable programme was rendered by the children and presents such as games toys and candy were given to all members of the school

A very pretty line was given by the young men of Manitou at the Grand View hotel on Christmas night The dining room of the hotel was decorated holly and other evergreens and the dance enjoyed by twelve couples till a late hour

Yesterday was the coldest day that Manitou has experienced this winter and the thermometer registered as low as zero in the early part of the day At Pettigrew's mining from the power house at Lake Moraine said that it was 17 below at that place yesterday

Mr John W Reisinger returned from Kansas City Kan Friday where he has been spending the holidays with relatives

Mr W H Morland has gone to Denver on business

Miss Agnes Davis returned from Denver this week to spend the holidays She has been studying elocution and physical culture at Professor Dikes Normal school Her young friends gave her a surprise party in honor of her return last Thursday night which was a very pleasant affair Refreshments consisting of punch and ice cream were served

Joe Hooker is in the city on his his holidays with his parents He is attending the State School of Mines at Golden Colo

Mr Carl Lauders who formerly lived here is down from Denver spending the holidays with his parents

A number of the young ladies of this city will give a dance at the Grand View hotel this evening The dances which the young ladies give are always very popular and this will be no exception to the rule

Business is generally dull in Manitou at this season of the year but the leading merchants report that it is better at the present time than ever before during the winter While the general run of business in all lines is very good the Christmas trade was not as good as usual

DR. PEARSON'S GIFTS

Chicago Dec 28—Dr D K Pearsons of Chicago who several months ago publicly announced his purpose of giving his fortune estimated at several millions to small colleges and other deserving institutions, the gifts to be made during his lifetime today increased his donations by $ 0 000

To Grand Prairie college of Onarga Ills was given $20 000 Lake Forest university received $27 000 A check for $2 000 was sent to a school the name of which is unannounced The gifts were contingent on the raising of $245,000 by the three colleges which has already been done

UTAH APEX SUIT

Grand Central Company Was Given the Decision

Salt Lake Dec 28—In the Fifth district court at Nephi, Utah Judge Higgins today decided the Grand Central Mammoth apex suit in favor of the Grand Central Mining company The case has been pending over five weeks

The Grand Central sued the Mammoth for $300 000 for ores extracted from the Grand Central ground and the Mammoth filed a cross complaint claiming the apex of the vein in the disputed territory and settling up title thereunder to the ore that had been extracted and such as might hereafter be found adjacent to the point over which the controversy arose The court holds that the vein which apexes in the Mammoth leaves the side line of the claim at a point which does not give the extra lateral rights sought to be secured by that company

An accounting will follow

TO SUCCEED PETTIGREW

Congressman Gamble the Choice of South Dakota Republicans

Sioux Falls S D Dec 28—Congressman Robert J Gamble of Yankton will be practically the unanimous choice of the Republican members of the legislature for the office of United States senator to succeed Senator Pettigrew whose term expires March 4 This is the result of the compromise now being effected by the Republicans of the state including the leaders who for several weeks have been opposing the election of Mr Gamble The basis of compromise is that Congressman Gamble shall be given the senatorship while those leaders of the anti gamble ring who have been opposing him are to divide the federal appointments of South Dakota

American Register Cocksburn St — London

The Gazette is delivered by regular subscribers every morning in Colorado Springs Manitou Colorado City and Broadmoor and can be obtained from the newsboys and at the news stands in each of the above places

THE GAZETTE'S NEW YEAR EDITION

ALTHOUGH the edition of the New Year Gazette will be the largest ever issued in Colorado Springs still the orders already in are so great that the entire edition is likely to be exhausted within a few hours after it comes from the press.

It will be incomparably the most readable and most artistic paper ever printed in the state.

Persons wishing extra copies should send their orders to the Gazette business office by Monday noon without fail. The price of the paper is five cents and each paper costs at least twenty five cents to produce. The New Year Gazette will be mailed to any address in the world for ten cents.

If you want extra copies of this paper you must order them now as there will be none left by noon of New Year day.

RECENT DONATIONS TO COLLEGES

AT THE closing of the term before the Christmas vacation at Wellesley college President Harriet Hazard made announcements of gifts amounting to more than $100 000. There were two gifts of $50 000 each—one to endow the chair of Biblical History and Literature, the other to endow the Kimball Professorship of Art. The names of the donors were withheld. There were further announcements of a gift of $ 000 toward a gymnasium, of two statues from La Rossine, by Greenough, the other by Crawford, and of a collection of valuable ores from the zinc and lead regions of Missouri. Prof W. O. Crosby of the Massachusetts Institute of Technology who has spent some of his recent vacations in Colorado studying the geological conditions here was the donor of these specimens.

The statement made in the Gazette recently that the largest givers to colleges were self made men who wanted to provide for others a training that they had been unable themselves to have is illustrated in the gift of a scientific hall to Ripon college by Mr O. H. Ingram of Eau Claire Wis. The following interesting biography of Mr Ingram was published in the accounts of the dedication of the new hall some two weeks ago:

"Mr Ingram, through whose generosity Ripon college has profited so much, is a representative lumberman of Wisconsin. He was left fatherless when eleven years old and went from his home in Massachusetts to work for a New York farmer for his board and clothing. When twenty years old he began work in the New York woods for $12 a month. Then he became a superintendent of log cutting and from that drifted into mill building and removed to Wisconsin where he has amassed a fortune.

AUTONOMY IN THE PHILIPPINES

IF the new autonomy party in the Philippines the formation of which is reported from Manila honestly intends to work for what its name implies it will be a good thing for the islands.

The United States intends to give the islands the largest measure of self government of which they are capable and if the inhabitants will accept that assurance and do what they can to deserve it the problems existing there will be solved in the shortest possible time and the best possible manner.

If the Filipinos had started out on the autonomy track instead of allowing themselves to be misled by Aguinaldo's absurd pretensions it would have been infinitely better for all concerned.

If, however the movement toward autonomy is to be made a pretense for renewed agitation and conspiracy, that is a different matter altogether and judging from the names of those who are at the head of the new party we would suspect that this might be the case. Yet anything is better than open warfare, and the thing most to be hoped for by the Americans is that the Filipinos will have the opportunity to become acquainted with our real character and motives. We feel certain that the chief reason for the outbreak has been ignorance and deceit and a fair trial of American sovereignty ought to convince the people of the islands that their interests, even more than our own, require its continuance.

THE EXECUTION OF PORTER.

THERE has been much stuff written about the recent burning at the stake in Colorado of the colored man Porter but nothing quite so unique and, in many respects quite so just to the parties connected with the affair as well as to the people of the state has appeared in any eastern publication as the following disquisition from the quaint and original pen of William Mills in the December number of the Philosopher.

There is a good bit of hysteria being indulged in just now over the lynching of the negro in Colorado the other day. As a people we run largely to hysteria—one way or the other. First of all let us understand a few things fairly. The negro should have been lynched. So should any white man who does the same thing. There are cases in which lynch law better expresses the majesty of popular will than do the more orderly and dignified processes of statute law. This is especially true in states like Colorado which has no death penalty, but where many men die suddenly because they don't shoot suddenly enough. But we are all agreed that the negro—or any white man similarly circumstanced—should be lynched. If so, why stickle at the particular method? Why not burn as well as hang? I'll undertake to tell you why. Because men in the exercise of righteous wrath upon a just provocation may in all dignity impose the supreme penalty of the Mosaic law—because from time immemorial it has been the way of men to take an eye for an eye and a tooth for a tooth. But among men it has never been justified to take an eye for a tooth—the limitations of the law have been as firmly bedded as its privileges. All the world not only loves a lover but sorrows with a sorrower and few will be found who will not sympathize with the frenzied father and condone any excess to which, in his unspeakable grief, he might go. But, without hysteria and in all calmness and a thousand miles or more away from the scene of the tragedy I want to brand every man other than that father who took part in that butchery as a weakling and a coward—a brute without the instincts of decency which God has placed in the least of wolves and coyotes—beasts in the worst sense of the word—beasts without a redeeming trait. Such men as these are a thousand times worse than the poor wretch they burned and so far would I be from deprecating their act that I would be glad to be able next month to chronicle the fact that it had been meted out to them with the measure they dealt out to him. In that country of fine distinctions in the way of honor sheep stealers should rank higher at the social scale than they. But enough of them—they are offal which taint the pen that writes of them. Surely it is hysteria to consider the affair a stain upon the fair name of the community. The community should no more be held responsible for their irresponsible act than should Marathon county, Wisconsin—and heaven knows that has enough troubles of its own to look after. The responsibility of the law began when the lawlessness ended. Colorado was not responsible for the outrage until by her official quietude after it was over she became and is participeps criminis a posteriori. Governor Thomas and from him down the whole line to the sheriff who turned Porter over to the mob can not wipe out either their legal or moral responsibility by speeches from the platform. Unless the coward who did the burning are brought swiftly and surely to justice everyone from governor to sheriff stands convicted of equal guilt with them—for at the law the accessory after the fact is as guilty as before. Colorado has yet time to cleanse the stain. She can spare anyone who could be convicted.

The solicitude of the upper class men for the newcomers at West Point as narrated before the investigating committee is something marvelous and it surpasses that shown in any of the sectarian colleges. After such testimony we cannot doubt that Cadet Booz drank Tabasco sauce because he liked it and we are tempted to believe that the profession of arms as taught at West Point, is the most humane and considerate of trainings.

CRIPPLE CREEK VERSUS THE MOSS-GROWN LIE

(By J. P. Rittenhouse of the Horsey Investment Company.)

Three years ago Cripple Creek's output was $12,500,000. In 1900 it has swelled to $21,000,000.

And yet some of the promoters of the hairy and get-rich schemes with which the country is being flooded are working off that bald toothless old Lie that Cripple Creek is on the decline in order to divert capital from this field to theirs.

This is the same persistent hoary old Lie that tried to lock up Leadville's millions by driving capital from that field. It has been camping on the trail of Cripple Creek since the latter's infancy and has been working overtime ever since.

The growth of the Cripple Creek mining industry during the past year exceeds that of any former year in its history. More permanent improvements have been made, more development work done and more dividends have been paid.

And yet the smooth man from the remote and shadowy Eldorados with his pink prospectus and photographs showing whole hemispheres of dividends tells the world that Cripple Creek is a fizzle that it is played out.

If the output exceeded the national debt the same old tattered shriveled frost bitten Lie would still be brandishing about its circulation.

Cripple Creek investments have grown in popular favor in spite of the unfriendly attitude of other stock centers which with the aid of this hysteric Lie have done their best to scare capital away from Cripple Creek.

New discoveries are being made constantly in Cripple Creek and as a result the 5 cent stock of today is likely to be the 25 cent stock of a few weeks hence and it may take a dollar to buy it in six months.

But from time to time we hear of the appearance of this whiskered old Lie anywhere from the lamplighted sands of Nome to the great unvisited African veldt. It is here today and tomorrow it is in Kruegersdorp—that Cripple Creek is dead.

Why should the finger of scorn be pointed at a rich strike just because it is made in Cripple Creek close to civilization to mills, smelters and railways, instead of being in Saskatchewan or the kopjes of Peru?

If Cripple Creek were located in the land of the Aurora Borealis or in the heart of Thibet this weather beaten old tramp Lie would turn to us like a brother and lie about our riches.

Transportation facilities, and the capacity of the mills and smelters have been increased during 1900 beyond that of any two former years. And yet our mills and smelters are at the present time over run with ore and Cripple's Creek's two railways are unable to furnish enough cars to handle the output as fast as it is mined.

Will the woeful round-shouldered old Lie take its hat off to these facts? No. Not Not. The Lie will not.

Cripple Creek is no new and untried field the future of which is in doubt. Nine years of vigorous development work and golden outflow has demonstrated its permanency. The days of uncertainty of excitement and of wild-catting are long since passed.

And yet some people permit this watery eyed old Lie to stare them out of countenance and scare them from Cripple Creek investments into the arms of the man who has an opening on the Tropic of Cancer 400 miles at sea or a large sugar factory on the upper Congo.

The world is large and round and roomy and we have no quarrel with those engaged in enterprises outside of the charmed circle of Pikes Peak but we rise to remark that it is time that those engaged in such enterprises discard this superannuated old Lie and promote their enterprises on their merits.

Who is better equipped to predict the future of Cripple Creek than the mine owners? What do they think about it? They have just put $2 500,000 of their money in a new railway to give Cripple Creek another outlet for its ores. Not the ores of the past, but the ores of the future. Local capital furnished every dollar to build this railway.

And still this musty threadbare and dyspeptic old Lie goes on and on and on.

That Cripple Creek investments are more profitable and less hazardous than those of other mining centers is proven by the marvelous growth of the business of the Colorado Springs Mining Stock exchange.

This exchange was established in 1891. Its business has sustained a gradual and healthful growth. For the last two years it has been the leading mining stock exchange on earth and it is now doing more business than the combined mining stock exchanges of America.

Will those who are trying to renew the youth and freshness of this doddering old Lie explain why if Cripple Creek stocks are not popular that in these years time the number of shares sold daily on this exchange has increased about four fold?

For the month of December 1891 the sales reached what was then considered the magnificent total of about 1 000 000 shares. Last month (November) they exceeded 24 000 000 shares.

It is said that Satan does all his trading with Good Intentions but for good motion indestructible paving material the enamled and vitrified Lies about Cripple Creek of which there is an inexhaustible supply would seem to justify His Satanic Majesty in ripping up his good intentions and repaving his whole acreage.

Considering the immense volume of business the number and magnitude of the mining deals carried on in this field the percentage of dishonest or fake schemes is less than that of any other speculative field on earth.

Not a dollar has been lost by clients as a result of the failure of any member of this exchange to fulfill his contracts. Failures or assignments of members of this exchange are so rare that one is now in the last stage of its organization.

And yet now lies come and new lies go but the old Lie about the Cripple Creek field goes on forever and forever.

The investor in stocks of new or remote or untried fields is in most cases obliged to look through the spectacles of the prospectus writer or the promoter in forming his judgment. Investigation is expensive and difficult. If the buyer can be innoculated with the fever and become properly excited judgment is a mere matter of detail.

The investor in Cripple Creek is not obliged to rely solely upon the judgment of his broker. No excitement is required. He is possessed of all pertinent information is placed at his disposal. An inquiry addressed to any member of the exchange will be promptly and specifically answered.

Over a score of newspapers are published in Colorado Springs and neighboring cities all of which devote large space to reports of the mines and the market. They contain stock quotations and information of all kinds that is of interest to the investor including reviews of current events and of the market by brokers in their market letters. These papers also promptly answer inquiries from strangers about any stock or company. Many brokers send mining papers to their clients daily free of charge.

Cripple Creek is accessible. It can be reached in Pullman cars. First class hotel accommodations are at hand and the visitor may ride over and around its famous hills in electric cars.

But the industrious circulator of the old fossilized antediluvian Lie referred to does not like this state of affairs. The gambling feature is too far removed. The risk is too shallow. It therefore points to distant fields beyond the horizon—beyond several horizons—where investment and the element of risk adds to the joy of the investor and keeps him busy guessing and asking himself questions as soon as he has invested his money. One of the first things he asks is this:

Suppose I should want to withdraw my money from this investment where could I sell this stock. No one answers and the pink prospectus sayeth not.

There is always a market for a Cripple Creek listed stock.

The great Cripple Creek mining industry has stood the test of nine years of underground investigation and it grows greater every year. Its product is gold—the only metal that does not fluctuate in value and which panics or hard times do not depreciate.

Cripple Creek stocks have therefore something tangible back of them and they offer safer and more profitable investments than the stocks of any other mining camp on earth.

We wish the various enterprises referred to a full measure of success but sometimes all bubbles burst and in excessive production has been known to depreciate the price of the base metals. When this misfortune occurs if it does occur—and long thereafter Cripple Creek's golden stream will be flowing merrily along on its way to the mint and those who now give a friendly ear to or assist in perpetuating this ancient Lie—this pessimistic disbanded disreputable old green eyed Lie may sit on the fence and watch it go by.

That Harrison Lecture

(Salt Lake Tribune.)

The North American of Philadelphia sharply denounces those who ascribe to Gen Harrison a purpose to influence the supreme court upon the question of the Constitution following the flag to outlying territory by his recent speech before the students of the University of Michigan. We think the North American is right in that respect. At the same time we think it was in bad taste for Gen Harrison to select that particular theme on which to deliver a lecture. We do not think he had any purpose or idea that what he said would influence the court. At the same time we believe he presented that argument which he delivered at Ann Arbor to be delivered on some occasion during the late campaign but when he saw the course that the campaign was taking and especially the erratic course of Mr Bryan in his appeals to the baser passions of men he decided that it would be better to have him beaten out of sight no matter in what way. But when the election was over and he was called upon to lecture before the university he could not resist giving indirectly to his own disappointment by delivering that speech though he knew that the question right then was under consideration by the supreme court of the United States. The North American says that people who are accusing Gen Harrison of trying to influence a judicial decision know that the supreme court is not to be swayed by public discussion of questions of constitutional law. That is just half true. Imperceptibly politics finds its way sometimes through decisions of the supreme court. It was so in the Dred Scott decision. It was so in the greenback decision. Because no matter how great the judge there are times when all the thoughts and habits and beliefs of a lifetime have their influence when the interpretation of a doubtful law is under consideration. We do not believe that Gen Harrison's speech will influence the court. At the same time in the east a good many journals are already anticipating the decision and claiming how the respective judges of the supreme court will hold. That simply shows that it was in bad taste for Gen Harrison, to deliver that address at this time and it is no answer to that argument that others have been discussing the subject all summer. Newspapers certainly have politicians have Mr Bryan spent the summer discussing it. But Gen Harrison is an ex-president of the United States and justly considered one of the foremost lawyers of the age. There was where the trouble came in. If he had been an ordinary politician it would have been all right. It was not all right under the circumstances especially was it not right when some of the arguments which he used are arguments which if they had been in his mind seemed of infinite importance he would while he was president have insisted that something more should be done for Alaska and for Arizona and New Mexico than was being done. He is a great man a great lawyer a wonderful executive but he is a human being with the same passions and ambitions than many lesser men have and he permitted his acute judgment to be led astray when he delivered that lecture.

Baby's Birthday

Today the baby is one year year old
And deep in our hearts she has gained a place
We would not barter for all earth's gold
That far little innocent dimple face
And we wonder while watching the placid brow
Unfurrowed yet by one seam of care
What the years will bring as they on wind flow
And the tender bud is a blossom fair

May the path be smooth for the little feet
As they start on the journey strange and long
May the grasses whisper them secrets sweet
And the birds burst forth into fuller song
May the eyes ever shelter the same pure light
That beams from their depths on the world today
May the heart be as free and the soul as white
As now in her spotless infancy

And if she must feel as all mortals must
The sting of sorrow the touch of pain,
May hope and courage and simple trust
Teach her to read the meaning plain
That fire must burn the dross away
Ere the metal be found within it alloy
That sides must frown ere the earth can be gay
That suffering leads us to higher joy

Our blessings be with thee little maid
May health and plenty and love be thine
May beauty and happiness never fade
But ever before thee brightly shine
May every year be an open door
Through which to gaze with enraptured eyes
On the future where radiant fancies soar
On the past with its heavenly memories.

—Elizabeth Toussy in N. Y. Tribune.

Husband—How much did you spend today.

Wife—Seventy six dollars and seventeen cents.

Husband (ironically)—Was that all?

Wife (with an injured air)—That was all I had.—(New York Weekly.

tle Information on the Pecos R. R. Deal

spatches yesterday morning hicago announced that the ley and Northwestern road taken in by the Santa Fe hrough purchase It is sup t the Santa Fe has made a the Rock Island because it hat the latter has been try a line into El Paso and a to the Pacific coast business lagerman the builder of the ey road is in New York and for the past month Mr german is now en route to An inquiry at their office y yesterday brought no in- regarding the deal because in charge knew nothing of m A Ottis the secretary of road but the offices of the are at Carlsbad N M and as very little to do with the of the road He was not in esterday An inquiry at his office brought no particular information on the matter although it was stated that such a deal might have been made

A gentleman lately returned from the east who is well posted in Pecos Valley matters said yesterday that he is quite sure that the El Paso and Northwestern road has been sold to the Rock Island This road was built by Chas B Eddy He told the gentleman that he had sold it to the Rock Island and R R Cable chairman of the board of managers of the Rock Island told him that his company had bought The gentleman said that he could not see what the Santa Fe was doing down there buying the Pecos road with the cut off line in the hands of the Rock Island especially as the Santa Fe already has a line into El Paso The Pecos road is 300 miles long and extends from Amarillo on the north to Carlsbad on the south

le Glee And Banjo Clubs Tonight

s to good old Yale k hes say

ams of Old Yale with mirth in their hearts will descend at Springs this morning and the city really is gay nor first night of the big stand

Glee and Banjo clubs forty re members strong will arrive this morning at 10 30 They down from Denver in their four s including two sleepers a baggage car The boys will er the Denver and Rio Grande t will alight at the depot thus waiting them many old sons ho for the past few days have club

est tale we had to tell

w bids old Yale farewell s for the reception of the New Daniels are all complete The lub be Yale day in Colo Luncheons a reception at the Alamo dinner and greatest the big concert at house tonight this is the program for the day To the Yale men and to a large number of people in Colorado Springs will be a day of society and music Miss Birch and Miss Hunt have each arranged luncheons for members of the clubs Mr and Mrs Worral Wilson will entertain some of the visitors tonight at dinner and other parties have been arranged This afternoon from 4 to 6 at the Alamo occurs the matinee dance in honor of the visitors

But the event in which all interest centers is the concert The Yale men will be assisted tonight by as fine an audience as this city of culture and refinement can turn out and the singers and players will have incentive enough to give the finest concert of their season here Yale men and Harvard men and Princeton men and other eastern college men and Colorado college men and other western college men live all planned to be there with their wives and daughters and sisters and lady friends It will be one of the finest audiences which ever filled the Opera house This is said to be the finest club that has ever sung for the Blue and Colorado Springs is looking for a treat of the nature peculiar to glee club concerts

William Hebard, a Prominent Mason, Dead

ny friends of Mr William r Dad Hebard as he was wn were shocked yesterday f his death Mr Hebard has janitor of the Masonic lodge this city for several years e that was janitor of the ny hall He was well known all the citizens ard has been ill for the past s and has been at St Fran l His condition was not con rious however and he has ing of coming down town Miss Lloyd of this city and ndaugh of Denver went out to and he was sitting eating his d talking to them when sud- ell over and expired ard was 70 years of age He in Connecticut and spent rs of his life in New York the east He was a railroad a great many years In 1861 ompany K of the First Illi ry and saw hard service in the rebellion About sixteen years ago Mr Hebard came to this city and since then has become very well known He was kindly and pleasant and the very fact that everyone called him Dad indicates that he was a genial man He was the tiler for all the Masonic bodies in this city and had advanced in the order to be a Knight Templar

Mr Hebard leaves a sister in Massachusetts and a nephew in Worthington Wis otherwise it is not known that he has any relatives

The deceased was a member of Colorado Springs post 22 G A R and of Colorado Sill A O F Secretary Schlesinger of the Foresters asks that All members of the lodge meet at G A R hall Sunday afternoon at 1 30 to attend the funeral of the late brother An emergent conclave of Pike's Peak Commandery No 6 K T is called at the asylum at 1 o clock for the purpose of escorting El Paso lodge A F and A M at the funeral

other Burglary At Colorado City

ery store of McRae and Steele o avenue at Colorado City was of another bold robbery some yesterday morning The store ed by forcing the front door then unlocking the back door hich the stolen articles were his is the third burglary that has happened during the past two weeks and, although the police keep the best watch possible the burglars seem to know when the officers are in another part of the town or at supper It is very hard to catch burglars of this sort for they generally have confederates to warn them of the approach of the police and unless they are taken unawares it is almost impossible to nab them

McRae and Steele have only been in the grocery business a short time and occupied the store building next to Murray and Snyder's real estate office on Colorado avenue between Fifth and Sixth streets When the store was opened for business yesterday morning it was found that the front door had been pried open and groceries amounting to $5 or $10 had been taken The articles taken include a ham some cases of canned goods cigars, and many other small articles The fact that the burglars took so many things proves that there were a number of them or that they had a vehicle of some kind for one man and even two could not carry the amount of goods which were taken from the store As has been the case in the other robberies of late the midnight prowlers left no clew by which the authorities might be assisted in tracing them

The building entered yesterday morning was the one which was formerly a photograph gallery and one side of it is filled with glass It is an old wooden one story affair and is very easily entered The police are doing all in their power to catch the men who are doing all of this night work and one suspect was arrested in Colorado Springs yesterday although nothing could be proved about him The police will continue their watch with greater vigilance than ever and they hope to capture the men soon McRae and Steele have now moved their stock into the building just west of Minium's second hand store on West Colorado avenue

There are few ailments so uncomfortable as piles but they can easily be cured by using TABLER'S BUCKEYE PILE OINTMENT Relief follows its use, and anyone suffering from piles cannot afford to neglect to give it a trial. PERSONAL MENTION.

Miss Evelyn McComas is at the Alamo

H n J el P Vail of Denver, was in the city yesterday

A A McClurg of Cripple Creek was at the Alamo yesterday

Clinton S Fletcher was down from Cripple Creek yesterday

A J Peck of San Francisco is among the guests at the Alta Vista

J P Stevens of the Alta Vista leaves today for a short visit to Denver

A B Cutler a prominent Pueblo business man was at the Alamo yesterday

A J Sanders and wife of Salem Mass have taken rooms at the Alta Vista

Mrs H L Collins of Toledo Oregon is in the city a guest of her brother Judge Hubbard

Hon Chas D Hayt was down from Denver for a short time yesterday and lunched at the Alamo

Mr George Bernard left yesterday for a short visit to his ranch situated a few miles north of the city

Mr and Mrs William A Otis were in Denver yesterday attending the Yale glee club festival

Mr and Mrs James Bury of Denver have been spending the holidays with Mr and Mrs L S Cohen 4 McKinley place

Miss Adeline Callahan of Rocky Ford is in the city for a visit of at out two weeks the guest of the family of Mr J P Madden

C C Spurg on Colorado college 00 came up yesterday from Texas Creek Mr Spurgeon was a member of each of the first three Colorado college glee clubs and came up to attend the Yale concert tonight

Mr W S Montgomery has gone to Denver to attend the meeting of the Western Sportsmens association to which he is a delegate This convention is for the purpose of suggesting new laws and doing other things advantageous to sportsmen

CITY HALL NOTES

Detective Atkinson arrested Max Gerald in Colorado City on a charge of larceny yesterday and he will be taken before Judge Rubey this morning to answer to the charge He is charged with the theft of a wheel which he attempted to trade in Denver City The wheel was only missing a few hours

James Stansfield was arrested on a charge of drunkenness and was fined $1 and costs in police court yesterday morning He was committed John McGovern a drunk was fined $1 and costs and was committed to jail upon the non payment of his fine

Gus Detrich who also goes by the name of Gus Tech was arrested and taken before the police magistrate yesterday morning on a charge of carrying concealed weapons and suspicion He was arrested by Officer Shelly on Huerfano street Thursday afternoon and when he was near best at police headquarters a revolver was found concealed in the leg of his trousers He was fined $10 and costs and was committed to jail upon the non payment of his fine The police suspected Detrich to the sweet box as to his whereabouts on the nights of the recent burglaries in Colorado City but nothing was learned from him that is of any importance

The food inspector yesterday condemned 100 pounds of turkeys as unfit for food and ordered them destroyed He says that when turkeys are kept in cold storage they are all right but when they are exposed to the air they will spoil no matter how cold the day

AN UNFORTUNATE ITALIAN

There is a case at St Francis hospital that is quite likely to excite the sympathy of some worthy person when the facts are known and perhaps some one with more money than he or she really can afford to have to be happy will extend a helping hand In an accident on the railroad about three months ago a young Italian had his eyesight destroyed by an explosion He has been at the Sisters' hospital ever since and now his eyes are healed but he is stone blind It is his one hope and prayer to go to his family but he has no way of getting there The sisters have been to see the county commissioners and they will assist some and no doubt the contractor for whom he was working will assist It will not take a great deal of money to get the man back to Italy and it would be a very happy solution of the difficulty of caring for him The sisters cannot keep him much longer and should not be expected to do so The Italian consul at Denver has been consulted but he has no means to do that sort of work No doubt some of the Italians in Denver would assist if someone would take the matter up and start a subscription

BRIEF CITY ITEMS.

POSTPONED—The Christmas entertainment of the First Christian church has been postponed indefinitely and the children are asked to take notice that there will be no more meetings for rehearsal

CAUGHT IN THE BED—A lady and gentleman stopping at the home of Prof and Mrs Loud came near having a serious folding bed accident one night this week The tricky thing collapsed the back portion falling down on the bed The gentleman was caught in such a way that he would soon have expired but the lady managed to crawl out and release her husband

J W ROSS IS DEAD—Jerome W Ross died yesterday at his home 714 W St Pikes Peak avenue His death was due to pneumonia and he had been ill but a short time The deceased leaves a wife and three daughters Mr Ross was a pioneer resident of this section of the state and the family is well known A further announcement will be made as the time for the funeral has not yet been fixed

OVER UNION MATTERS—There was somewhat of a disturbance at one of the buildings being erected on the west side by Carl Porter a painter of the city claims that he was attacked by five carpenters working on the same job Parker is a contractor for painting and usually does his own work He says that the men quarreled with him over union matters claiming that he is a scab He has a scar on his forehead and says that one of the men struck him with a hammer He proposes to get out a warrant for assault Mr Parker thinks he would have been badly handled had not outsiders interfered

TWO NEW ENGINES—The new Cripple Creek Short Line is fast receiving its equipment of rolling stock Yesterday two new engines for the road arrived in the city One is a big passenger engine and the other is a small freight engine The locomotives were brought in over the Rock Island and were unloaded at the Roswell Lund shops They will be put together there and sent up the Short Line behind the road houses The big engine is No 2 and is a giant Engines Nos 3 4 and 6 of the same size and style as No 2 are expected to arrive today or tomorrow from the works at Schenectady N Y

A BRASS MONKEY

Charles H Hoyt always gives original and queer names to the personages in his farce comedies A Brass Monkey that ran a whole season in Greater New York and outshines all his other brilliant successes is an illustration of this fact and playgoers here will have a chance to convince themselves at the Opera house on Tuesday afternoon matinee and evening In begin with there is Jonah, a victim of superstition and other things Doolittle Work Dodge Work, August Frost The Mascot (the dog) Faith Hope and Charity Grace in a bunch and the dear sweet little soubrette Baggage the alleged daughter of Jonah The latter character is not a voodoo It represents a victim of superstition Baggage is the star part and Miss Mazie Trumbull fills it perfectly She seems to have been molded for this role by nature a premier sculptor She is a dream of loveliness in repose and a poem of beauty in acting

MY FRIEND FROM INDIA

My Friend from India is a farce comedy delightful in its cleanliness and sparkling with natural fun It is merely a new arrangement of rather familiar stage complications introducing the light and frivolous troubles of a rich family who desire to get into really top notch society The plot is simple natural and full of surprises resulting in a more than ordinary evening's fun This popular play will be seen at the Opera house Monday evening

HAVERLY'S BIG MINSTRELS

The most artistic musical arrangement that has ever been perfected with a minstrel organization will be found with the Big Haverly's Mastodon Minstrels which come to the Opera house next Thursday evening Claude Matthews one of the most prominent musical directors we have has left nothing undone that would make this end of it attractive His giant orchestra is much augmented and contains among other soloists Harry Leighton American leading minstrel tenor The comedy part of it has not been overlooked Father Jeff George Wilson the Big Four Dan Allman and 10 other fellows are with the company

GARRETT LOST

The following special from Denver tells the story of yesterday's shoot for the Spalding trophy

Garrett lost again by one point his record being three birds better than that of a week ago The local sports will be glad to know that their representative in the fight for this trophy is determined to stay with the game until he wins out and that the next competition will take place at the Broadmoor grounds

Special to The Gazette

Denver Dec 28.—The shoot for the Spalding medals was held this morning on the Denver trap club grounds Garrett of Colorado Springs met with the same luck that accompanied him at the last shoot It will be remembered that he then lost to Creek by one point He immediately challenged Creek for another shoot to take place during the Sporting Men's convention in this city and it was held today Owing to the fact that Creek is ill A B Daniels a local crack shot accepted the challenge and shot in Creek's place These were four entered for the contest which resulted as follows Daniels 94 Garrett 90 Shemwell 90 Arnold 87 Immediately upon the announcement of the result Garrett again challenged the winner The challenge was accepted and the shoot will take place on the Colorado Springs grounds in the near future The weather this morning was extremely cold

Garrett has won many friends in the capital city by his persistent efforts to wrest the medal away from Denver and carry it to the springs

The disposition of children largely depends upon health If they are troubled with worms they will be irritable cross fretful and perhaps seriously sick WHITE'S CREAM VERMIFUGE is a worm expeller and tonic to make them healthy and cheerful Price 25 cents Hefley Arcularius Drug Co 21 South Tejon st

GOOD WILL TUNNEL AND ANCHORIA-LELAND CONNECT

Tunnel is Into Gold Hill a Distance of 3,000 Feet And Enters Lexington and Anchoria-Leland Ground at a Depth of 700 Feet.

The Good Will tunnel which runs into Gold hill from Cotton Tail gulch, is now connected with the Anchoria-Leland workings.

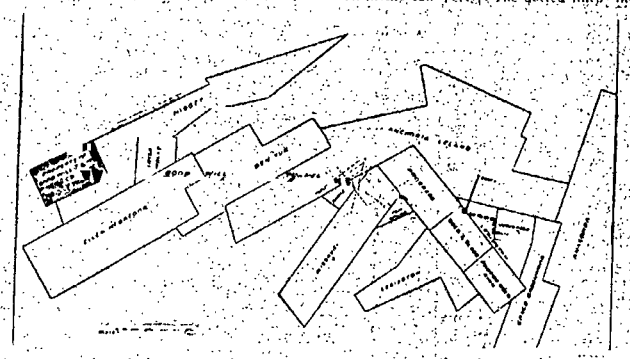
This important piece of work has been completed within the past few days and comes only after the expenditure of a great deal of money and the accomplishment of an immense amount of hard work.

The Good Will tunnel has been driven into Gold hill a distance of practically 3,000 feet. From a point near the breast of the tunnel a crosscut has been driven over to the Anchoria-Leland workings and the two connect at a depth of about 700 feet below the surface. The tunnel also runs into Lexington ground where the breast now is and penetrates several other well-known properties on Gold hill.

For some time past work in the tunnel has been greatly hindered by the presence of bad air and a great many difficulties had to be overcome. Since the connection has been made, however, the tunnel has been absolutely cleared of foul air and gases and there is now a steady draught through it which will keep it fresh for all time to come.

The tunnel was conceived by Mr. William Weston, the well-known mining engineer, and the work has been accomplished under his supervision. It is a fine large bore with double track rails and ditch box, a splendid equipment in the way of machinery, including boilers, air compressor, power drills, etc., and running through territory which should prove commercially valuable.

Besides entering Lexington and Anchoria-Leland ground the tunnel also cuts through claims belonging to the Ben Hur, Missouri, Progress, Gold and Globe and other companies. The accompanying plat will show the course of the tunnel, also the crosscut connecting it with Anchoria-Leland property. The dotted lines indicate some vein that have been encountered.



The connection of the tunnel with the Anchoria-Leland is a most important event in the history of the company and some activity in this direction, after the long siege of development work, may be looked for.

THAT GOLD COIN STRIKE

Six Foot Body of Five Ounce Ore--High Grade Mineral in the Lower Deadwood--Strike on the Speeler Claim.

Special to The Gazette.

Cripple Creek, Dec. 28.—The strike in the Gold Coin is showing an improvement with every shot, and tonight there is a six foot body of five ounce ore in the breast of the drift at 850 feet. The ore is steady in value and with the indications as they are it is probable that the shoot will widen out to much greater extent. Shipping was commenced today from the ore body which was but two feet in width when first cut. Another crosscut is being driven from the drift to locate a parallel vein which is supposed to exist near the rich one, and the granite is already showing flecks of sylvanite. The ore is some of the best that has ever been found in the mine and will make steady high grade shipments. The ore has been opened up for a distance of 180 feet and there is no sign of a break in the shoot.

Symes, Delaney & Sims, leasing on the lower Deadwood, have cut into some high grade ore which is heavily covered with sylvanite and free gold. A shipment of 9 tons was sent out today, consisting chiefly of ore which has been taken from the old vein with only a little of the high grade from the new shoot thrown in.

The Arcadia company will resume work tomorrow morning on the old Brady workings of the Burns claim. A new gallows frame has been erected and a temporary structure put up to protect the machinery.

Drifting to the north was commenced today in the west vein of the Mabel M. The Woods Investment company operating the property, cut into the ore nearly three months ago, but were forced to abandon the level on account of bad air. The vein was cut at a distance of 300 feet from the shaft in the 110 foot level, and the shoot has never been opened before. The ore holds which runs all the way from 1 to 3 feet in width is of excellent character and good shipping values are being had from it.

On the Speeler claim of the Colonial Dames company in the south of Victor, Lessee Crawford has opened up a half inch streak of ore that runs as high as $20 to the ton. This was encountered in the course of sinking and was cut at a depth of 65 feet in the shaft. A drift will be started on the ore at this depth as it is dipping out of the shaft and sinking will also be continued.

The Latrobe Gold Mining company has resumed work on the Pittsburk claim on Straub mountain and the shaft will be sunk to a depth of about 800 feet. Considerable money has been expended in development work and the shaft has been put down already to the 350 foot point, at which level two veins of good appearance have been opened but so far no pay metal has been extracted. The Latrobe company has plenty of good backing and extensive development work will be carried out from now on.

May Belle.

Operations on the May Belle claim of the Woods Investment company have been temporarily suspended and when they are resumed the shaft will be sunk to the 850 foot point and lateral work commenced. Besides other extensive development work an excellent showing was made in the May Belle about a month ago and good sylvanite ore was encountered which did not prove permanent, and consequently the property will be developed to a greater depth. The shaft is now down to a depth of about 350 feet.

NEW SHAFT FOR LITTLE BESSIE

The New Management Will Sink at Once to a Depth of 200 Feet--Surveys Indicate the Claim Will Get the El Paso Veins.

The first meeting of the newly elected directors of the Little Bessie Gold Mining company was held yesterday in the offices of Messrs. Shove, Aldrich and company, at which the officers were elected, and an important decision made in regard to the development of the company's property.

The officers chosen to serve for the ensuing year are: president, Dr. J. W. Graham; vice president, Sherwood Aldrich, and secretary and treasurer, E. P. Shove.

It was shown at the meeting that the company has the sum of $3,600 in the treasury, and 100,000 shares of stock—the total capitalization of the company being 1,250,000.

Up to the present time practically no work has been done on the property, which is well located on Beacon hill, adjoining the Cripple Creek Columbia. Several shallow shafts have been put down, but no thorough work has been accomplished. It was divulged at the meeting held yesterday that the company has had, during the past few weeks, careful surveys made of the underground workings of the El Paso, Kimberly and Cripple Creek Columbia properties, and that it has been determined that the parallel veins, which have been yielding rich ore for some time in the mines mentioned, cross the property of the Little Bessie.

It was decided, therefore, to sink an entirely new shaft on the property immediately, and one 4½ by nine will be started within a week and put down to a depth of at least 200 feet. The work will probably be done on a contract basis and finished as rapidly as possible.

Very fine float has been found on the surface of this claim, and as the veins have been determined to cross it, it is confidently expected by the new management that they will be able to open up an ore shoot within a reasonable time.

As the names of the officers indicate, the control of the company lies with the firm of Shove, Aldrich and company, who secured control of the stock some time ago, and when it first transpired the shares advanced about 100 per cent, anticipating the work which is now promised.

IMPROVEMENT IN COLUMBIA'S ORE

Drifting on New Vein Has Progressed About Four Feet of Granitic Ore For a Distance of 20 Feet, Showing Consistent Values.

In the past two weeks the most marked improvement has taken place in the property of the Cripple Creek Columbia Mining company on Beacon hill. It was announced in these columns some time ago that a new vein had been cut in the 240-foot level, in the crosscut which has opened several veins since it was first started. This vein has now been drifted on for a distance of 20 feet north, and the average width of it has been between three and one-half and four feet, mineralized all the way across in a granitic formation.

Heretofore all the drifting done in the veins which have been opened at the different levels in this property has been done south of the shaft, towards the Kimberly line, but the new vein, which has not yet revealed its identity, carried a rich shoot of ore to the north which is far more encouraging than anything which has yet developed, as the workings are on the south end of the claim.

Five men are now working in ore in this vein, three in the breast and two in the stope, and ore is accumulating in the ore bins at a rate which will make a shipment of 30 tons possible the first week in the new year. The work which is being done in the stopes goes to show that the ore is better than it is below, which is another change from the usual way, the ore has been found in this and the level above, where the very tops of the shoots seemed to have been cut, and where the ore was soon stoped to a pinch.

The present body, however, is rich above as well as below, and gives every indication of permanency, having held with perfect consistency for a distance of 20 feet. The vein carries rich streaks of sylvanite, but the screenings run between $67 and $80 in gold to the ton, and it is expected the next shipment will run about three and four ounces.

Negotiations are now pending for a heavy plant of machinery, including boilers, engine, hoist, compressor and pumps, and when these are installed, the shaft will be pushed downward as rapidly as possible.

RICH ORE FROM GOLD KING

Returns have just been received from a shipment recently sent out by Lessee J. A. Dean, working on the Gold King property on Gold hill, which show remarkably high values in this claim. A fraction of a ton was sent out which returned $8,212.50 in gold to the ton. This grade of rock comes from a rich streak in the third level, and more of it is being saved now.

In addition to the lot of rich stuff which was marketed, about 15 tons of the ordinary grade went out at the same time which returned $38 in gold to the ton, which is considerably better than the values received from the previous shipment of that grade.

The Gold King is one of the properties of the Savage Gold and Copper mining company, and is being worked very successfully by the present lessee. For some time he was hampered by the encountering of a great deal of waste which had accumulated in the drifts, but he now has his workings in good shape and will be able to maintain a good production.

CARRIE S. REDEEMED

Henry M. McAllister, in behalf of several of the individual stockholders in the Carrie S. company, yesterday, redeemed the properties of the company from the threatening sale for a sum of something like $1,300. The stockholders mentioned have also put up enough money to pay off all the liabilities of the company, which, including another debt of about $2,000, approximate $4,000.

It was stated in the evening paper that the time for redeeming the properties had been extended three months, but this is absurd on the face of it, and entirely erroneous as well. If the properties had not been redeemed yesterday, when the legal time expired, they would have been irrevocably lost.

Although the officers of the company were receiving contributions by way of a voluntary assessment which had been requested, it did not appear that the properties would be redeemed, and so several of the large stockholders got together and put up the necessary money. They will now stand in the position of creditors to the company until such time as the amount recei d by voluntary contributions is sufficient to reimburse them.

It was reported around town yesterday afternoon that a suit would soon be brought against the present officers of the company by those who have just taken the matter onto their own shoulders, alleging that the amount received from voluntary contributors would have paid the amount of judgment yesterday, and that enough would have probably accumulated before the properties were brought to judgment for the other amount to redeem them from that; and also alleging that the officers intended to let the properties go by default. But no confirmation of this report could be obtained.

The important fact to the Carrie S. stockholders is that the dreaded sale, which has been hanging over them like the sword of Damocles for some time past, has now been successfully averted, and that the properties are absolutely safe.

MINING NOTES AROUND TOWN

For a few days past the progress of the Ophelia tunnel has been somewhat delayed by bad air. Just recently, however, a connection has been made between the tunnel and the Maynard shaft on the property of Fauntleroy and the air is much improved, allowing the big bore to go ahead. It has passed through the property of the Cripple Creek Consolidated company and is now well into the Morning Glory of the Work. The drifting on the vein from the tunnel level in the Fauntleroy property is progressing. It will be remembered that the Fauntleroy officers granted a contract for the drifting.

FERRIS-HAGGERTY MINE ENCOUNTERS BIGGER ORE.

In the 130-foot level of the Ferris-Haggerty mine in the Battle Lake copper district of Wyoming, the vein has widened out to 40 feet, carrying copper values in pay quantities across its entire width. The output which the mine is making now keeps 60 six-horse teams busy transporting the ore to the railroad, a distance of about 56 miles. The mine has always been known as a big one, since its start at grass roots, but it has never been such a proposition as it is now. Across the state line into Routt county, mining camps are being opened on the same copper belt where it is reported that very good indications are being obtained.

WORD OF A BIG PLACER STRIKE IN MEXICO.

Word has just been received in this city of a rich gold find in old Mexico, near the city of Oaxaca. Two prospectors of Denver were grub-staked by wealthy operators in Mexico to explore the territory adjacent to Oaxaca and early in their expedition they opened up very rich placer fields. Crowds are reported to be flocking to the scene of the new find, and it is said that it is one of the most important discoveries of gold which has been made in that section of the country.

LEASE GRANTED ON HOMESTAKE'S GOLD QUEEN.

The directors of the Homestake Gold Mining company have just granted a lease on their Gold Queen claim, located on Galena hill in the vicinity of the favorable developments of recent occurrence in this locality of camp. The name of the person to whom the lease is given has not transpired, but it is understood that it is a good worker. He will have his lease for 18 months, working under conditions favorable to the company, although not stringent for himself, and will pay about 20 per cent royalties. The lease covers only the south half of the claim. The property of the Homestake company adjoins the Cameron townsite where a promising vein was recently opened up, and the new lease hopes to be able to open its extension on the Gold Queen. In addition to this, the fact that it is only 400 feet distant from the property of the Sedan and Sunshine properties, is an additional testimonial to its favorable location.

ANTICIPATING ORE ON THE MINNEHAHA.

Lessee Davenport, operating on the south end of the Monarch company's Minnehaha claim on Raven hill, is buying new rails to lay in his workings at a depth of 300 feet, anticipating the cutting of the ore shoots in the two veins where he is now drifting. These were cut some time ago, one supposed to be the extension of the Jennie Sample vein, and the other what is known as the Ophir. The appearance for several feet has been very encouraging, the rock being heavily stained with fluorine, and neither the lessee, nor the manager of the company, has the slightest doubt of the eventual encountering of an ore shoot in both of the veins. As in the adjoining properties the veins have been very productive, it is believed that a production from them in the Minnehaha claim large enough can be made to warrant the equipping of the mine in a thorough way. The work of the company on the north end of the property is progressing nicely, but it so far has been productive of nothing more tangible than encouraging indications.

The Gazette is the Only Newspaper in the State with Its Own Private Wire to the Colorado Springs Mining Stock Exchange.

THE COLORADO SPRINGS MINING STOCK EXCHANGE

Colorado Springs, Dec. 28.—The market today on the Colorado Springs mining stock exchange is not deserving of any excusing words. It is about as listless and low as it has been within the memory of the present generation, and no one seems to feel particularly concerned about it. There is no doubt about the reason for its condition, but the brokers, while they all agree that the weakness is attributable to the misrepresentation about Stratton's Independence and the failure of outside money to come into the market, they all expect that an improvement will be felt in the early weeks of the new year. While it may take longer than that to counteract the conditions which have caused the present market, the mere fact that the brokers expect better times may be taken as something of a prediction of them. The market would not have been so weak during the past few days had it not been that the brokers did not expect an improvement before the first of the year, and made no effort to support the stocks.

In the mines list Doctor-Jack Pot occasioned some surprise by selling below par, 1,000 shares going at 99 cents. Amanda was down, selling at 48½, and Portland's remained weak at 18. Elkton, however, strengthened up to $1.86 and El Paso, although it was not traded in to the amount of a board lot strengthened to 43¾. Isabella closed at 68, but Lexington slumped to 10½, while Mollie Gibson sold at 20, two blocks of 500 shares each going at that price. Portland was a fair trader at $3.30. Among the other stocks the features were very few. Sedan was a much lighter trader than it was yesterday and Pointer occupied the center of the stage among the unlisted stocks, selling well at prices fractionally above 13. Acacia went below 30 again in the afternoon, and Zoe sold down to 9¾, although it was afterwards very active, buyer 30, closing at 9½ on that time.

UNSETTLED CONDITIONS

Profit Taking Was Renewed in Force Before the Close.

THE MARKET WAS BUOYANT

Striking Feature was the Inconstancy of the Strength and the Demand for Special Stocks.

New York, Dec. 28.—The history of today's stock market does not differ materially from that of the past few weeks, that is to say, selling to take profits came on the market like a flood in the opening dealings and the professional bears, constantly watchful for the first sign of the reaction which they knew must inevitably come, offered prices down in an attempt to dislodge long stock. Their efforts were defeated, as they had been on many previous occasions, by the supporting orders which came into the stocks attacked and the new points of strength which were confidently marshaled from among the stocks which have not yet enjoyed any considerable rise. The point wherein today's market differed from those of recent stock exchange history was that the profit taking was renewed in force before the close and the unsettled condition continued until trading ceased, prices at that time showing wide declines from the best and in some cases being well below last night. There were no remaining points of strength to sustain the market in this late break, the ingenuity of the traders having apparently failed them, or their industry in seeking out new stocks being overcome by weariness.

Once again the often recurring cry of a year end squeeze in the money market was raised this morning in connection with the opening attack on stocks. Loans today on the stock exchange carry over until Monday but this fact coupled with the year end requirements failed to create a ripple of trouble in the call loan market. Only at the opening was 6 per cent asked and the rate declined from that point. A strong bank statement seems assured tomorrow in view of the gain by the banks during the week from sub-treasury operations of $2,575,000 and an estimated gain on the interior express movement of nearly $3,000,000 more. The failure of the money market to harden was the occasion of the strong rally from the opening break in which Peoples' Gas, Brooklyn Transit and Sugar were forced from 1½ to 3 points. The striking feature of the buoyant market which prevailed during the middle portion of the session was the inconstancy of the strength and demand for special stocks. A rapid price movement in an individual stock would be followed by a sharp reaction, while the speculative demand would shift hurriedly to other quarters. A few minutes consultation between traders on the floor would result in the formation of a pool to take all offerings in some inconspicuous stocks. After these were absorbed the price would be rapidly bid up 1 or 2 or 3 points. Such a maneuver never failed to attract a horde of speculative followers, buying orders coming from both within and without the exchange. The short time pools had no difficulty in liquidating their holdings at a handsome profit. The list of stocks in which this operation occurred includes many of the high grade railroad stocks as well as those known in stock exchange parlance as cats and dogs.

The demand for bonds was not so conspicuous as yesterday, but there were strong points in the market. Total sales, par value, $5,925,000.

U. S. old 4s advanced ¼, refunding 2s ¾, and 5s and 4s ¼ on the last call.

New York Money.

New York, Dec. 28.—Money on call easy at 3@6; last loan at 3; ruling rate 5½. Prime mercantile paper 4¾@5¼.

Sterling exchange firm with actual business in bankers' bills at $4.85 for demand and at $4.81¾@4.81¾ for 60 days. Posted rates $4.82@4.86. Commercial bills $4.79¾@4.81.

Silver certificates 64½@65½. Bar silver 63¾. Mexican dollars 50.

Bonds—Governments strong; state inactive; railroads strong.

Chicago Grain and Provisions.

Chicago, Dec. 28.—Save for a few moments at the start the government report issued after the closing yesterday wasted its bearishness on the desert air. The general opinion before business began was there would be imposing amounts of long stuff for sale, consequent to the government figures and those who wanted to buy held off for a recession in prices. May opened ¼@¼ lower at 72½ to ⅝, nervously touched 72⅝@¾ and then dropped to 72⅜@72¼. The unloading of wheat that had been expected had to materialize. The course of the market thereafter developed the fact that it had been oversold. Bids for wheat served mostly to keep the price an elusive fraction away until May had fully recovered. Even at the top price, 73¼@¾, offerings were only moderate and the close was firm ½ higher at 73¾.

Corn was moderately active at the opening but became dull and narrow later.

Oats were dull but firm.

Provisions were quiet but firm, except for December lard, which lost its recent manipulative support and dropped off five cents.

The leading futures ranged as follows:

Articles.	Open.	High.	Low.	Close.
Wheat No. 2—				
Dec.	....	....	....	70⅞
Jan.	69¾	70¼	69⅞	70⅛
May	72⅝	73¾	72⅝	73¾
Corn No. 2—				
Dec.	....	....	....	36½
Jan.	36⅛	36⅜	35⅞	36⅛
May	36	36⅜	35	36¼
Oats No. 2—				
Dec.	....	....	....	21½
Jan.	21¼	21⅞	21¼	21⅞
May	23¾	24	23¾	23¾
Mess pork per bbl.—				
Jan.	12071½	12120	12071½	12120
May	12115	12215	12115	12222½
Lard per 100 lbs.—				
Dec.	....	....	....	6824½
Jan.	6700	6774½	6700	6774½
May	6765	6825	6765	6825
Short ribs per 100 lbs.—				
Jan.	6225½	6300	6225½	6300
May	6350	6400	6350	6400

Cash quotations were as follows: Flour dull and easy.

No. 3 spring wheat 68@71; No. 2 red 72@74½; No. 2 corn 36¼; No. 2 yellow 36¼; No. 2 oats 23½@23¾; No. 2 rye 60@61; fair to choice malting barley 52@60; No. 1 flax seed 155; No. 1 northwestern 158; prime timothy seed 450; mess pork per bbl. 1100; lard per 100 lbs. 675; short ribs sides (loose) 62@650; dry salted shoulders (boxed) 57@6¾; short clear sides (boxed) 65@7c; whisky, basis of high wines 127.

Articles.	Receipts.	Shipments.
Flour, bbls.	66,000	61,000
Wheat, bu.	212,000	43,000
Corn, bu.	515,000	72,000
Oats, bu.	402,000	165,000
Rye, bu.	2,000	2,000
Barley, bu.	10,000	25,000

On the produce exchange today the butter market was dull; creamery 19@23; dairy 12@20; cheese 10¼@11¾; eggs 21.

Chicago Cattle.

Chicago, Dec. 28.—Cattle receipts, 3,500. Good to prime steers $5.25@6; poor to medium $3.85@5.15; selected feeders $3.75@4.25; mixed stockers $2.50@3.75; cows $2.50@4.20; heifers $2.50@5.40; canners $1.75@2.70; bulls $2.50@4.50; calves $4@5.50; Texans, fed steers $4@4.85; grassers $3.30@4; bulls $2.50@3.85.

Hogs, receipts, 27,000. Mixed and butchers, $4.60@4.90; good to choice, heavy $4.70@4.90; rough, heavy, $4.55@4.65; light, $4.60@4.80; bulk of sales, $4.75@4.85.

Sheep, receipts, 8,000. Good to choice wethers, $3.75@4.50; fair to choice, mixed, $3.40@3.75; western sheep, $3.75@4.50; Texas sheep, $2.50@3.60; native lambs $4.25@5.60; western lambs, $4@5.50.

The Metal Market.

New York, Dec. 28.—Business was generally of a hand to mouth character in the metal trade today. Speculation was conspicuous by its absence and the market was devoid of important news developments. Tin was about 50 points lower today. The close was 28.90@27.20, owing to a lack of sellers. Copper in London was fairly active, 2s 6d lower. Local prices were $17 for Lake Superior and 16¾ for casting and electrotype.

Lead was dull but steady, 4.37½. Spelter 4.12½@4.17½. Domestic iron markets ruled dull at unchanged prices. English iron markets were unchanged.

The Coffee Market.

New York, Dec. 28.—Coffee, spot, Rio, steady; No. 7 invoice 6¾; mild quiet. Cordova 9½@13¾.

BANK CLEARINGS.

New York, Dec. 28.—The following table, compiled by Bradstreet, shows the bank clearings at the principal cities for the week ended December 28, with the percentage of increase and decrease as compared with the following week last year:

New York	$1,118,877,111	16.2	....
Boston	119,494,351	....	....

The Latest Strike

In the Sunset district, California, is in Sec. 1, 11-24—the Arcola Oil company. When the tools were withdrawn a tremendous flow began, estimated at 600 barrels a day.

Possibly the Colorado and California Oil Co. can report an equally fortunate circumstance in 45 days. Their land is equally good, in fact better located, same district.

MONEY TO LOAN ON REAL OR PERSONAL SECURITY, AT LOW RATES OF INTEREST.

Munson Investment Co.
A. S. MUNSON, Room 51 DeGraff Building.

The Development of the Routt County Oil Fields

Shows indications of extremely rich oil in large quantities. Oil mining is more profitable and much less expensive than gold mining. Routt county is destined to be the greatest wealth producer of the state. It will vie with Cripple Creek as the richest territory of the west. If you got in on Cripple Creek after prices were up, don't miss it on Routt county. Get in at low flotation prices. The land of The Northwestern Oil and Gas Co. is in the very center of the oil basin. Investigate it.

WEATHER FORECAST

Washington, Dec. 28.—Forecast for Colorado: Fair Saturday; warmer in eastern portion; Sunday fair; variable winds.

A baby buggy is the gift second horse tipped which arrived today. Will close out at a reduction.

The Colorado Springs Transfer Co. moves packs and stores household goods.

Mexican hand carved leather goods. Wise's, 11 East Pikes Peak avenue.

Five dollar Douglas shoe for $2.50.

Special sale on Outing Flannel Night Shirts 50c at Weir's.

WATCH NIGHT.—A Watch Meeting will be held in New Year eve at Mt. Olive Baptist Church, 1601 S. Weber.

A RECEPTION—A reception will be given this evening in Masonic hall in honor of Mrs. Mary Bates, president of Institution of Domestic by Famous Daughter No. 9.

Warm Imported Scotch Cloves at Weir's.

Y. W. C. A.—Mrs. J. J. Brooks will speak at the Young Women's Christian association, 116 N. Weber street, on Sunday afternoon at 4 o'clock. All women are cordially invited.

PETITION TO SELL.—A suit was filed in the district court yesterday by Marion A. Fitch, guardian of Wm. Glen Martin, to sell lots 9, 10, 11 and 12 in block 35, East Colorado City.

TONIGHT.—The Nah Ola and Mandolin club appear at the Opera house this evening. The concert begins at 8:30. Undoubtedly this will be the social event of the winter at the Opera house.

Special sale on warm heavy underwear at Weir's.

LICENSED TO WED.—James M. Welch of Colorado City and Mrs. Anna Russell of Pueblo; Mr. Frederick W. Henry of Trinidad and Edna Dean Miller of Rockport, Mo., took out marriage licenses yesterday.

DR. SLOCUM.—The president of Colorado college, Dr. Slocum, will address the men's mass meeting at the Young Men's Christian association Saturday afternoon at 4 o'clock. There will be special music and all men strangers especially are invited.

ROBERTS DIVORCE CASE.—In the district court yesterday the case of Celestine Roberts vs. J. J. Roberts for divorce came before Judge Harris on the motion for allowance pendente lite. The court allowed the defendant $25 fortnightly and $10 attorney's fees. A change of venue asked by the defense to Park county was denied.

Extra Heavy French Dome Flannel Pajamas $2.50 at Weir's.

COUNTY COURT.—Giddings Bros. filed an attachment suit against W. A. Hickman yesterday for the sum of $46 and Shirley Bros. filed one for the sum of $43.50. The case of the city of Colorado Springs vs. Max Hymman was dismissed. It is an appeal from the police magistrate in the suit under Hyman was fined for selling liquor.

COUNTRY HUNT.—The El Paso Hunt club will not have a hunt tomorrow morning, but instead will go on New Year morning, at 8 o'clock. The run will be south of the city to the old Lee County ranch, and it is expected that there will be an interesting time as a large number of the lovers of the sport have signified their intention of going.

NEW COMPANY.—Articles of incorporation of the Colorado and California Fuel and Oil company were filed for record yesterday with the county clerk. The object of the company is to operate coal and oil lands in the production and handling of oil and coal. The capital stock is 3,000,000 shares of the value of $1 each. A. S. Munson, W. P. McIntosh and L. N. Brunner are the incorporators. The company will have offices in this city.

LLOYD TONERAY DEAD.—Lloyd Toneray, son of Mr. and Mrs. C. H. Toneray, died yesterday morning at the family residence, 1[illegible] North Nevada avenue. Death came very suddenly. It was caused by pneumonia. The young man leaving home but a few days. The young man was 21 years of age and a week ago looked in fine physical condition. He was a young man of sterling qualities and was very popular in the city. He was a nephew of Mr. H. H. Dibble, the broker. Until a week ago the late Mr. Toneray was connected with the office of surveyor of Pueblo as on the new City to Cripple Creek Short Line. The funeral services will be held this afternoon at 2:30 o'clock from the family residence. Services and interment private.

TO PROTECT GAME.—Mr. John A. Himebaugh and other local sportsmen went to Denver yesterday for the purpose of attending the Sportsmen's convention and also the meeting of the Glen Beulah Park association. Mr. Himebaugh is president of the latter association, which has for its object the preservation of deer, mountain sheep, antelope and other game. Hunters of bear and mountain lion are invited to make the preserves of the association their camping ground in order to save the smaller animals from the big game. The association owns about 1,800 acres of ground about 17 miles from De Beque, Colo., where the smaller game is protected. The organization has a membership from all over the state. Incorporation papers were prepared at a meeting in Denver.

CHAMBER OF COMMERCE.—Secretary McCune, in looking through his books, finds that the chamber of commerce has doubled its membership in two years and has had a gain of 60 per cent the past year.

KNIGHTS OF SECURITY.—The regular meeting of the Knights and Ladies of Security will be held at 8 o'clock tonight in Odd Fellows hall. All members are requested to be present as important business is to be transacted.

CONDITION SERIOUS.—The condition of Frank Bushmeyer, who was hurt in a street car accident recently, is reported very serious. Bushmeyer fractured his right leg while trying to dismount from a car which was in motion, and it was found necessary to amputate the limb above the knee yesterday. The injured man's condition is considered doubtful. His home is in St. Charles, Mo. He came out here seeking employment.

CALIFORNIA TRAINS.—The agent of the Santa Fe road states that there has been a perceptible increase in their business to California since they changed the running time of the trains so that travelers can get away from here in the day time or early in the evening. The fast trains leave now for the coast leaving here at 6 o'clock a. m. and 10:30 p. m. Miss Ada Martin, who has been visiting last evening for Los Angeles and Henry L. B. Wills and wife and A. S. Hillbrook and wife are booked for next week for Los Angeles.

THE GREAT TELESCOPE.—Prof. Herbert A. Howe, director of the Chamberlain observatory at Denver university, has put in words a brilliant picture which is said to have passed across Canada and Western parts of the state on December 1. It is the effect produced when the sun is in the vicinity of its light. Mr. Howe says: "I have [illegible] purpose in the [illegible] having [illegible] a telescope which will be the finest of its kind in the world. A [illegible] brilliant [illegible] of [illegible] has been noticed and commented upon but so far as can be learned no one in this city saw it."

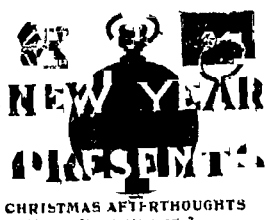
For Sale or Trade.
Twenty acres patented land on Galena hill, Cripple Creek.
Address Box 1491, Colorado Springs.



CHRISTMAS AFTERTHOUGHTS

Did you forget some one?
Did you get a better present than you gave?
Why not even up the score with a New Year gift?
It is perfectly proper.
For such an occasion gold and silver articles are perhaps more appropriate than anything else.

C. L. Van Wert, Jeweler,
108 Pike's Peak Ave.

Educating people *up* to Ward quality and *down* to Ward prices.

Your Throat

won't stand teasing. You cannot afford to catch cold and trust to luck to get rid of it. The cough may be a trifle easy one day and worse the next if you neglect it. There's nothing worse for your cough than frequent coughing. Just think of the delicate mucous membrane of your throat and remember how sore it feels after a severe coughing spell. There's nothing so good for your cough as Peerless Cough Syrup. Two sizes, 25 cents and 50 cents. It soothes, heals and cures.
